## Farmers Urged to Place Workers in Deferred Draft Class

The following statement has been issued by the United States Employment Service of the Department of Labor:

"A new draft of about 90,000 men shortly will be called to the colors. The Provost Marshal General has ordered that men actively, assiduously, and completely engaged in the planting or cultivation of a crop but who are listed in Class 1 of the draft and within the end of the new quota."

"The local draft boards, being judicial bodies, can not defer the call of such men, however, unless the farmers employing them support their claims for such deferred classification with affidavits. It is therefore of vital importance that farmers immediately execute and file such affidavits with the local boards.

"If farmers whose hands are affected in this new call fail to follow this advice, they should have no cause for complaint if their men are taken from them at this critical time. It will be useless and unreasonable later to protest if they have done nothing to retain their help. Immediate action on the part of every farmer whose employees are affected is essential and should not be delayed under any circumstances."

Call at the Farmers State Bank and William Angus will assist you in preparing the affidavits.
