Several of the other ladies of Coopers-town helped to make the program a success. Rows one and two have the greatest number of stars for neatness this week. Steinborn School, A. C. Paulson, Teacher. We did not have school on Good Friday. Charles and Edward Gartman, Marion Paulson, Gertrude, Margaret and Edward Wells have had perfect attendance the past month. We expect to commence school by "Government" time hereafter. It is possible that several necessary repairs will be made to our building this summer, and that a basement will be dug and a furnace installed. This will give more room in the building which will be needed next fall when there will be several more scholars. Several classes have begun reviewing the work they have gone over this year, as the work for their grade has been fully covered.
