

Drafted men to the number of 43 left last Friday for Camp Dodge. A special car had been attached to the train for them, and they were given splendid ovations as they passed thru the different towns. In Hannaford a large crowd had gathered at the depot, and patriotic songs were sung while the train remained in town, and cheers were given as the train pulled out. They were a splendid lot of men, and no doubt every one of them will give a good account of himself in his country's service.
