William Westley, Editor

Hot noon-day lunches are now offered at school for the benefit of the country children. The food is prepared by the High School girls in the Domestic Science room. Vegetables and milk are brought by the country pupils, while the groceries are purchased in town and the cost divided among them. The teachers take turns, of a week at a time, staying to take care of the children and keep order. The children wash their own dishes. Last week the following was served: Tuesday, cocoa; Wednesday, creamed potatoes; Thursday, tomato soup; Friday, baked potatoes and gravy. Next week the following will be served: Monday, cocoa; Tuesday, potato soup; Wednesday, corn, mush; Thursday, tomato soup; Friday, baked potatoes and gravy. The lunches are very much appreciated by the children.

The following pupils of Miss Houghton's room had perfect Spelling lessons every day last week: Carl Haugen, Marie Hareland, Bernard Judge, Frederick Knauss, Ole Troseth, Lydia Frydenberg.

The children of Miss Houghton's room have been busy last week making clippings for, and sewing Red Cross comfort pillows.

A new supply of Physics Laboratory equipment has just arrived. Last Friday the Physics class spent a period testing lung pressures and experimenting with electricity. The school also has received a new and interesting geography chart.

Next Thursday evening the Literary Society will give an interesting program in the High School Assembly room. Come out and show us you take an interest in the school. Everybody invited.

All the school pupils are looking forward to the Christmas vacation. May it be a happy one—and long!
