

Jacob L. Miklethun was a caller at the Enterprise office last Wednesday. Mr. Miklethun has recently returned from California where he has been spending the winter. His family are still there and will remain throughout the summer. Mr. Miklethun is highly pleased with conditions as he found them in California, and may decide to locate there permanently. The roads are everywhere in first-class condition and traveling by motor is possible at all times of the year. Tourists are all the time flocking to that state. In the winter people from the north are mostly in evidence, and in the summer time the tourists come there from points further south, so the people who cater to tourists are busy all the year around. Mr. Miklethun's children are at present enjoying the school advantages of Riverside, California, and will remain there at least till the end of the school year.
