

O. C. Westley received word yesterday from his brother Dr. M. D. Westley that he was then in Minneapolis on his way home and expects to arrive home Saturday. He also states that he had just received word from the War Department that he had been promoted to captain on November 14th, although he failed to receive his notification to that effect till over two months later. He says that the U. S. A. looks like God's country to him, and that he is certainly glad to get back.
