**Deering Twine Binder**

is now made for the fourth year and has a record of unqualified success. It was the first made and has been brought to perfection while competing and imitating machines have been made for only one or two seasons and some of them are advertised this year for the first time. It uses small inexpensive cord, never fails to bind every bundle and is the **LIGHTEST DRAUGHT, MOST DURABLE AND BEST FINISHED MACHINE** in the market.

Any one who buys the **DEERING BINDER** avoids every chance of trouble or failure in the harvest.

MANUFACTURED BY

The secretary of the interior authorizes land grant railroads to proceed against timber trespassers upon the odd sections within the limits of their grant.

Mrs. Langtry announces that Mr. Gebhardt will be her manager next season, also that a celebrated dramatic author has taken her measure for a new play.

Anyone contemplating travelling back east as a corpse must provide themselves with a certificate setting forth that they are not contagious. At least so say the passenger agents of the railways.

Work on the Washington monument is to be begun on April 1. Two hundred and fifteen feet have yet to be added to the height of the tall shaft, and two seasons will be required to complete the work.

The gross earnings of the Northern Pacific during the month of February were \$373,091, an increase of \$104,156 over last year for the same period; that of the Manitoba were \$389,600, an increase of \$28,700.

One of the youngest married couples on record was seen at Castle Garden a few days ago. The husband was seventeen and the wife sixteen years of age, and they had two children of their own. They were from Hamburg.

It is stated by Third Assistant Postmaster General Hazen that the one-cent stamps will bear the vignette of Franklin, the two-cent that of Washington, the four that of Jackson, and the five will retain that of Garfield, the three being abolished.

The Nebraska Legislature meets in the fertile end of a very big and thinly-peopled state, and has almost nothing to do. It sits a month or two in comparative idleness, and then the legislators go back to their farms with the pleasing sense of having done all that was expected of them.

A son of George Francis Train is to be married shortly to Charles Thorne's daughter. The union of the children of two notables is quite a social event in New York, and will create a sensation. Miss Thorne has proved herself a clever actress, with not a little of the talent of her father.

The Chinese in Melbourne, Australia, have started several establishments for collecting cats. The trade is shrouded in mystery, for, so far, no one has been able to discover for what purpose the poor tabbies are used. It is not likely that they are used for food, because the collectors prefer old cats to kittens, and pay as much as 25 cents a head for fine old Toms.

The new postal notes are to be about as large as an ordinary treasury note, and will have ruled columns for the date of issue and the amount. The value of the note will correspond with the sum of the figures punched, a result just the reverse of that caused by the car conductor's punch. Three cents fee will be charged for issuing one. The system has worked well in England for two years, and will doubtless be popular here.

The commissioner of the general land office will in a short time distribute the amount appropriated for public surveys. It appears that last year there was disposed of in the Union Pacific 13,998,000 acres of public lands. One-third of this quantity, 4,330,000 acres, was disposed of in Dakota. It is said that to-day there are in Dakota 10,000 people living upon unsurveyed land unable to acquire title of their lands because a sufficient amount has not been allotted to that territory for making surveys.

Some one has been figuring up the profits of Montana cattle raisers, and says in the past five years their average profits have been 100 per cent, while in some cases their gains have been much larger. The "reckoner" says: The profits for the first year is nominal, the second year it averages 30 per cent, the third year 30 per cent, the fourth year 50 per cent, and the fifth year 70 per cent. The average loss by disease and casualty during the same period has been 15 per cent, or three per cent annually.

TERRITORY OF DAKOTA,  
County of Griggs,  
C. F. Schilling, Plaintiff,  
vs.  
George W. Mc Ginnis, Defendant.  
NOTICE is HEREBY GIVEN, That by virtue of an Execution to me directed and delivered, and now in my hands, issued out of the Clerk's office of the Third Judicial District Court, Territory of Dakota, in and for the county of Barnes, upon a Judgment rendered and entered in said Court in favor of C. F. Schilling, plaintiff, and against George W. Mc Ginnis, defendant, I have levied upon the following described property of said defendant to-wit: About fifteen tons of hay now in stack on the S 2 of the N W 4 and the S 2 of the N 2 of section ten (10) in township one hundred and forty-four (144) in range sixty (60) County of Griggs and Territory of Dakota; and that I shall on Thursday the 30th day of March, 1883, at the hour of 10 o'clock a. m. of said day, at the front door of the court house in the town of Cooperstown, in said County and Territory, proceed to sell all the right, title and interest of the above named George W. Mc Ginnis in and to the above described property to satisfy said judgment and costs, amounting to one hundred and seventeen dollars and sixty-eight cents, together with all accruing costs of sale, and interest on the same from the 15th day of March, 1882 at the rate of 7 per cent, per annum, at Public Auction, to the highest bidder for cash.
