ECCENTRIC BOB TOOMBS.

A Favorite Granddaughter Cut Off for Marrying the Man of Her Choice. Atlanta Constitution.

Our reporter met an old friend of Gen. Toombs on Wednesday and remarked, "I understand that a few days ago General Toombs disinherited his granddaughter, Miss Dubose, because she married against his will. Don't you think he will reconsider this act?"

"I do not," was the emphatic reply. "General Toombs is very bitter on that point, and when I think of all the circumstances I am sure that he means all that he has done, and that he will remain immovable."

"Tell me the circumstances."

"It is a long story," replied the narrator. "It would read like a romance if properly pictured, but I don't mind telling if you will be content with facts minus the coloring. It is a sad story to me, because I always felt an interest in the lordly Georgian and the different members of his family. I was sorry that General Toombs has done this act. He can afford to forgive his granddaughter and bestow all his land on the Yankees, if he choose to do so. He can afford to hate the Yankees for it is a matter of little concern what one man does so long as the balance of the south has accepted the situation and almost forgotten that there ever was a war. But it is not for me to say that General Toombs has done wrong, disinheriting his grandchild because she married the man of her own choosing. Miss Dubose and Mr. Colley were engaged and the General objected. Mr. Colley is a worthy young man against whose moral character no charge can be brought. He was a clerk in one of the stores in Washington, and was not wealthy, but to that fact General Toombs did not object. The general, you know, cares for a long line of ancestors, and blood, and that sort of thing, which is all right I suppose. At any rate, he did not like the Colley family, and he urged his grandchild to give up the idea of marrying Mr. Colley. She pleaded and he remonstrated. He threatened and she became determined. Finally he told her that in his will he had bequeathed her \$50,000, and spoke of that to show the interest he felt in her. She would not promise to give up Mr. Colley, and General Toombs got out the will and showed her the paragraph where the fortune was left to her. She was not to be moved. He offered to make it \$50,000. She said she would promise not to marry Colley during Toombs' lifetime. The general, in his usual way, said he would pay nobody to postpone an act until his death. He threatened to disinherit her but she never moved from her position. Then General Toombs told her that unless she promised not to marry Colley he would have his will changed and would not leave her a cent. She replied that if she must choose between the two she would be disinherited. The general then told her that he would give her forty-eight hours to leave the house. Miss Dubose proceeded to show her grandfather that if she was driven out she would have to be married at once. The general tore around, and Miss Dubose communicated with her friends, and the result was that the marriage took place that day. General Toombs took his will out, had it changed, disinheriting Miss Dubose, and added a paragraph providing that none of his property should go to her directly or indirectly."

"Has she ever been back to her grandfather?"

"No. A few days ago Mrs. Toombs was very sick, and her recovery was not expected. Mrs. Colley wrote the general a note, and asked permission to call and see her grandmother. General Toombs read the note, and handed it back to the messenger with the simple statement that he had no communication to make. That is the story as it comes to me."

The Lands of the Pacific Northwest show an average yield of wheat per acre largely in excess of that of any other section of the United States.

No failure of crops has ever occurred. Oregon Wheat commands a higher price than that of any other country in the Liverpool market.

An immense area of very fertile Railroad and Government Lands, within easy reach of the trunk lines of the Northern Pacific R. R., the Oregon Railway & Navigation, and the Oregon & California R. R. Co's and their numerous branches in the great Valley of the Columbia and its tributaries, are now offered for sale at Low Prices, and on Easy Terms, or open to pre-emption and Homestead Entry.

The great movement of population to the Columbia region now in progress will be enormously increased by the completion of the Northern Pacific R. R. and the Oregon Railway & Navigation Co's systems.
