

THE COURIER.

FRIDAY, SEPT. 7, 1888.

The Pioneer Press explains editorially that cyclones originate in Dakota and pass over into Minnesota to "go off."

A statement from Washington shows the amount of public lands disposed of last year as about 19,000,000 acres, of which about 8,000,000 were in Dakota.

After Oct. 1 a letter may be sent to Canada for two cents, but a letter from Canada to this country costs three cents.

Many people are not aware that a stamp when part on a newspaper and part on the wrapper subjects the package to letter postage, and in consequence many transient papers fail to reach the parties to whom they are directed.

Kentucky democratic newspapers are grieving because their party is so large a majority in the state. They think it would be better for the organization and for the people if it had a vigorous and powerful opposition.

Minnesota newspapers, having recovered in some degree from the panic incident to the destructive tornado at Rochester, are now offering rewards for the arrest and conviction of the conscienceless scamp who sent out the report that a railroad train was blown from the track and all the passengers killed.

Soap in Dakota Soil.

W. G. Merrill, of this township, while digging a well on his claim, struck what seems to realize what has hitherto been the subject of an old joke—a soap mine. The earth, when damp, is a pale green yellow, and feels like potter's clay, but more like moist fullers' earth.
