Like an Evil Spirit. In olden times it was thought that evil spirits came in through cracks and keyholes. The generally approved way to keep them out was to plug up the keyholes and stop the cracks with cotton. Notwithstanding these preventive measures, the evil things had their own way and often came in as they pleased.

So comes malaria now-a-days. We try to keep it out of the keyhole and it comes in by the crack. We stop up the crack, and lo! it comes from a leak in the plumbing, or an opening from some neglected drain, or from some unsuspected source and unguarded direction.

We cannot always keep malaria out, but we can give it battle and drive its effects from our systems. If BROWN'S IRON BITTERS is taken in time, malaria has not a ghost of a chance. This is the great family medicine. Your druggist sells it, and you ought to keep a bottle in the house.
