WHIDDEN BROS.

GREAT INVENTORS.

For practical inventive genius the Americans undoubtedly excel every other nation on earth. It frequently happens however, that while inventors are speculating to make possible and impossible improvements, some of the most practical and necessary things are overlooked, and always to remain in their premature state. An instance of this kind is the ordinary Bob Sled. This is in our Northern latitude a very useful implement; but the changes in its construction have been but small and few from the forked stick that was first used until lately. Some four or five years ago a mechanic named Wampoch, at Shakopee, Minnesota, was frequently called upon to repair broken Bob Sleds. The country is rough and timbered around them and therefore trying to the durability of Sleds. This set him to studying, and the result was the construction of what is often now called the "Wampoch Bob Sled," an implement far more perfect than anything else of the kind made up to this time. It is not only finished and ironed off in better style than Sleds used to be, but it is entirely flexible, each runner acting independent, and it will thus slide over little unevenness in the road much easier resistance than Sleds of other makes. Many imitations have been made of the "Wampoch" since that time, mostly with cast knees, which of course are much cheaper to make, but cannot be durable, and have therefore often a longer or shorter implement generally been discarded.

A CAR LOAD OF THESE SLEDS

We understand have arrived in Cooperstown for Odegard & Thompson. Knud Thompson told us to-day that said firm expects to handle a full line of the very best implements this year, but, says he "We shall get only first-class goods, such as the "Wampoch" Bob Sled, the Buckeye Seeder, etc., that will absolutely sell themselves, so we shall not have to pay you printers anything for advertising." "All right, Knud, we shall simply fill your space with other matter until you have something nice to say about your Dry Goods, Groceries, Fur Coats, or Clothing, Boots & Shoes, etc., as it is reasonable enough that the "Wampoch" Sled will sell without advertising."

The Sherman house at Fargo was damaged \$1000 worth by blue blazes last week.

Work has been suspended until spring time on the Fargo Southern, with 30 miles of track down.

Plankinton Standard: There is now going on all over Iowa, Illinois and Wisconsin, grand and general preparation for a removal to Dakota in the spring of thousands of people. Every Iowa exchange we receive tells of families who are coming.

Dakota took the gold medal at the Cincinnati Exposition for the finest display of agricultural products. The display was conceded by all the judges to be far superior to any rival exhibits and it was composed almost entirely of contributions from North Dakota.

Dakota Pioneer: Wm. N. Johnson, returned from Michigan on Tuesday morning of last week and reports a foot of snow when he left, and a worse blizzard prevailing than he ever saw in Dakota. Who wouldn't move from Michigan to this delightful climate of Dakota, where we revel in perpetual sunshine, while our neighbors in the eastern states shiver and shake for six months in the year?

For mens' fur goods go to Nelson & Langlie's.

We can sell you a team of mules or horses, a yoke of oxen, a cow, hogs, chickens, etc. You see we buy anything and sell everything—soft soap excepted. Odegard & Thompson.

Our goods will bear inspection with any stock in this market, and all we ask is a call to convince you that by buying goods of us it is money in your pocket. Nelson & Langlie.

A fine calf boot for \$2.75. Also a large stock of winter foot gear at Odegard & Thompson's.

Whidden Bros. have never before urged their customers for a dollar, but any thinking man can understand that owing to the sudden change—the death of one partner—it's necessary to wind up the present business. Don't forget to pay.

Notice to Tax Payers.

Notice is hereby given that the tax lists for Griggs county are now in my hands for collection.
