

THE ART OF SMUGGLING.

Ingenious Devices to Avoid the Payment of Import Duties.

"Yes," he continued, in reply to a question regarding his smuggling, "I traveled in New York ports for a good many years, and I reckon they all knew I was smugglin', but I never got nabbed but once, and that was by a detective who got on at Havana with me and got into me by sayin' he was smug-glin'."

"But the fruit dodge was an old one. I had a friend who worked the diamond racket, that put me up to it. There wasn't an inspector in New York but who knew him. I left Rio with him one trip and he had over \$50,000 worth of diamonds that he wasn't goin' to pay duty on."

"The tricks he had," continued the admiring friend, "fill a book. One time, you know, there was a fashion for box toes, and his were box, sure enough, and the toe of each was holler and held half a dozen stones. The buttons on his coat were holler, too, and made to shut with a spring, and so it was."

One can sit out of doors all the year round with comfort. In winter, a hat and wrap are needed, and the sun's direct rays are often pleasant. In other seasons, light woolen or cotton clothing is comfortable, and one seeks or shuns the sun according to the weather and hour of the day.

The Scramble for the World.

From the Pall Mall Gazette. What a scramble it is, and how hot it is getting! England and Russia began the game, France struck in, and now Germany is in full cry. The contagion of annexation is spreading everywhere. Europe is partitioning the world. Every power is gasping with both hands after fresh territory.

Attention is chiefly directed just now to the action of Germany. But that action has been much less systematic than might have been expected from so scientific a people. Instead of dispatching Dr. Nachtigal to pick up a few sea-boats here and there along the African coast, our German kinsfolk should have set to work in more deliberate and comprehensive fashion.

The action of the German gunboats is, however, forcing to the front the question as to what constitutes a valid act of annexation. International law refuses to recognize a paper blockade. What has it to say about a paper annexation? If the lands of the dark races are to be publicly scrambled for, what are to be the laws of the game?

The late Rev. Dr. Telford repeatedly expressed his belief that he owed his life to the timely use of PERRY DAVIS' PAIN-KILLER. During his recent visit to the mission in Burma, he had a severe attack of the cholera, and was immediately relieved by the use of the Pain-Killer.

What may be termed the opening of the society season in New York occurred at Grace church, Wednesday afternoon, when Miss Leonie Blanch Jerome, the daughter of Leonard W. Jerome, was given in marriage to John Leslie, lieutenant in the Grenadier Guards and only son of Sir John Leslie, Bart., of Glasslough, Ireland. Miss Jerome, who will be remembered as the sister of Lady Churchill, was attired in an imported Worth costume of white brocade silk, trimmed with point d'Alencon. Her ornaments were diamonds, pearls and necklaces. The ceremony was performed by the Rt. Rev. Bishop H. Otter. The bridal couple will sail for London within a few days.

ASIATIC CHOLERA.

Almost every case cured with PERRY DAVIS' Pain-Killer.

Pain-Killer

DEAR SIR:—During a residence of some ten years as a missionary in China, I found your Vegetable Pain-Killer a most valuable remedy for that fearful scourge, the cholera. In administering the medicine, I found it most effectual to give a teaspoonful of the Pain-Killer in a glass of hot water, sweetened with sugar, then, after about fifteen minutes, begin to give about a teaspoonful of the same mixture every few minutes until relief was obtained. Apply hot applications to the extremities. Rub the stomach with the Pain-Killer clear, and the limbs briskly. Of those who had the cholera, and took the medicine faithfully in the way stated above, eight out of ten recovered.

Truly yours, R. TELFORD. The late Rev. Dr. Telford repeatedly expressed his belief that he owed his life to the timely use of PERRY DAVIS' PAIN-KILLER. During his recent visit to the mission in Burma, he had a severe attack of the cholera, and was immediately relieved by the use of the Pain-Killer.
