The Iowa North Dakota Land Co. people are busy fixing up samples of grain, grasses, trees and soil to be sent to Iowa for the exhibition at the county fairs. Every county in the state hold a fair and stock show some time during the month of September. These samples are tied up in neat bunches with ribbons, packed in boxes and sent to some agent there who fixes up a booth and makes a Griggs county display. They are also negotiating for space at the Iowa state fair to make a fine display there. In this way they are in touch with the people we want here and call the Iowa farmer's attention to this country. It is a good ad. for the country and will no doubt bring the boys a lot of business this fall. They are rustlers and deserve all they make. If Griggs county had more people working as zealously to advertise and improve the country as they do we would soon have a family on every half section and our land would be worth fifty dollars an acre. The grain is fine this year and some good samples are sent out.
