CATCH PHRASES.

Their Utility In Advancing the Interests of Business Men.

There are many instances of where a sultable catch line well drilled into people has been of great value in building business. The best catch line is one that fits your business best, and the discoverer of such a line is apt to be due more to inspiration than to effort. Pick the distinctive feature of your stock or basiness methods and endeavor to express it in a breath.

If you can coin a phrase that expresses your central business idea or emphasizes some feature that marks your store alone, you can make good use of it. It puts into condensed form an idea that will get hold of people and influence them if persistently presented to them. One fact about your business well lodged in the heads of people is as good as a score that do not penetrate.

You can make people believe about what you like if you go about it properly. If a man comes to you today and and your trust, that you are giving , tells you there will be a panic inside of six months, you will pay no attention to him. If another comes tomorrow with the same story, he will get no attention, but you will idly wonder what is getting into folks. The third man you will argue the matter with. The fourth will get more of a hearing, and you will begin to see signs of dis aster yourself. By the time the tenth man has made the statement you will be ready to tell folks the same story yourself.

Probably you yourself could not be influenced in such a manner, but the common run of people are built that way and will believe what they are told often enough. That is why as expressive catch phrase does good. I comes to stand for you and your methods and of necessity is remembered

when goods in your line are wanted. As ordinarily used such a phrase i of little value, because it is not proper ly hammered into people. Such a linshould go on letter heads, billheads stationery, envelopes, should go into every ad. or circular, should be seen about the store and should appear or labels. Put it on a sticker to attach to goods and packages. Let people se it everywhere. If it means what i says, people are going to respond to it -American Druggist.
