Maynard Crane has been nominated for the state senate. That he will make a splendid member of that body goes without saying. He is a live business man and a hustler and in conjunction with Mr. Cassell will ably represent the district.

The republican party has no apologies to offer to anybody. It is the party of progress and prosperity. On the other hand the democratic party is the party of "we condemn and deplore." It hangs back in the traces like a balky mule. If there should be any doubt in the minds of a voter as to which ticket he ought to vote this fall, let him review the industrial conditions of the country under a democratic and republican government. That ought to settle his mind without any further argument.

Griggs county is pleased that Hon. M. B. Cassell is on the legislative ticket. He was one of the best members of the last house and it would have been a calamity to have left him off the ticket. He withdrew last week because he wanted Griggs county to have a fair show and to him and J. J. Wamberg and a few other "white" men we doff our cap. To the other political virtues who refused to do the square thing with this county we just want to say that there will a time some day and then we shall have an inning. Stick a pin in here.

Bro. Rearick demonstrates his ability as an acrobat and can turn himself around as quick as the next one. Two weeks ago he roared because he said the university people didn't give dem. papers an ad. and he wanted pie oh, so bad. The Courier called him down on that, so that in last week's issue he completely backs down and says that he did get the ad. a year ago and got just double the pay that his republican contemporary got for the same work. Under the circumstances Rearick should "skin" back what he said about the university regents only patronizing republican papers, because his own evidence convicts him of deliberately misrepresenting facts—which is the only stock in trade a democratic paper has during a political campaign.

If the Griggs county delegates were too hasty in leaving the legislative convention what does the Hope Pioneer consider the action of the committee meeting at Finley Tuesday, when everything was fixed before our people could get there? Bah!

If the last issue of the Sentinel contained a full report of the late democratic convention then that body was a little shy on resolutions and we miss the "we condemn and deplore" aperturances that always go with a democratic gathering. It is the first time in the history of the democratic party in this county if no resolutions were passed, and if they did pass some, the Sentinel has been ashamed of them up to date. We take it for granted that the leaders of the party in Griggs county have not the nerve to go before our people endorsing the resubmission dose administered by their state convention, and finding no grounds to put up any kind of a sensible kick against the republicans the resolutions were left out.

M. C. Spicer,  
Republican Nominee for State Attorney for Griggs County.

## What Lignite Will Do.

Will keep a good fire all night in

### Cole's Hot Blast Stoves.

This is because they are Air Tight, and have a hot blast draft that burns the 80 per cent. gas that arises from lignite, which is allowed to pass up the chimney with other stoves. Over half of the lignite is gas. You must get air to gas before it will burn. Cole's Hot Blast Down Draft supplies the necessary amount of air to make \$3.00 a ton lignite equal to hard coal at \$12.00.
