"A Breezy Time" company played to a large audience at the Opera House last Wednesday evening. The entertainment all the way through is said to be of the finest sort. The clog dancer was about the only good feature in the crowd. Some of these companies seem to have an idea that when they get up into North Dakota an old thing do and charge 75c for seats. It is about time that the theatre going public out this class of shows. We are not kicking on Mr. Marquardt, the owner of the Opera House, the company came highly recommended to him and he got sold as bad as anybody. There was nothing decidedly bad about the entertainment but it was loud in spots and would better pass for a 10c variety show than a first class entertainment. This is not our opinion as we were not present, but it is the opinion of a majority of those who went with the idea that they would get a good entertainment.

F. R. Crumpton, of Crumpton & Crumpton, grain commission men in Superior, was in Cooperstown last Saturday on his annual trip to this section of the northwest in the interests of his firm. He is well known in Cooperstown from his frequent trips to the city and the big fight he put up last winter in connection with the proposed grain inspection in which Wisconsin and North Dakota was interested. Mr. Crumpton talks interestingly of the methods used by the elevator people in Madison last winter to defeat the plan but thinks at the next Wisconsin election the inspection will become an issue and will be sure to be passed by the next legislature, probably along the same lines as the bill proposed last winter. Mr. Crumpton will be in North Dakota for a week or more. He says we have as good crops here as he has seen in all of his travels.
