Judging from the large list of impure foods published all over the state the citizens of North Dakota have been throwing coal tar and saccharine into themselves for 10, these many years. Some of the strawberry canned goods didn't even have any real strawberries in it at all. The new pure food law is a good one.

R. C. Cooper writes us from Kansas City, Mo., that he and Mrs. Cooper are slowly working their way to Los Angeles, Calif., and will arrive there about the end of this week. Hammer & Condy recently sold to J. M. Sells, of Eagle Grove, Iowa, all of section 3 in Washburn township. The indications point to a number of new settlers this coming spring.

A call appears in this paper for a meeting of those interested in a farmers' elevator to meet at Jessie on the 25th of this month. The question of building such an elevator has been under discussion for some time and something definite will no doubt be done at that meeting. Let all those interested remember the date and be present at that meeting.

A deal was made Saturday whereby C. F. Nelson buys out W. T. Munn's interest in the Iowa-North Dakota Land Co. and will continue to run it under the same name as manager. Mr. Munn is going on the road with headquarters at Monmouth, Ill., and will make trips up this way from time to time. He retains his half section farm west of town so he will still be interested in this country.
