Yours truly,

### STATE BANK OF COOPERSTOWN,

### World's Fair Notes.

A car load of exhibits and oriental furnishings for the beautiful Ceylon pavilion at the World's Fair reached St. Louis a few days ago. The shipment was from Colombo, Ceylon, via New York.

Nevada's state mineral exhibit, which has an approximate value of \$70,000, will be exhibited at the World's Fair at St. Louis. In addition there will be a number of valuable private cabinets shown.

The blizzard which struck St. Louis Jan. 25 caused all outdoor work at the World's Fair to cease for a short time. This was the first day this winter that work out of doors was impracticable. Work of installing the exhibits inside the buildings was not seriously interrupted.

Andrew H. Bergstrom, of a firm of contractors at St. Louis, has agreed with the Swedish World's Fair commission, to put together their national pavilion free of all cost. The building was erected at Stockholm and has been shipped to St. Louis in sections. Mr. Bergstrom estimates that it will require the services of 150 men three days to put the building together.

The big flag staff for the House of Hoo-Hoo reached the fair grounds this week. The timber is 60 feet long and 12 inches in diameter at the base. The House of Hoo-Hoo is built entirely of wood and is intended to form a museum of the lumber products of the United States as well as a handsome club house for lumbermen.

Reports from St. Michael, B. C., are to the effect that the well preserved body of a mammoth has been found by Indians in a glacier near that point. Charles Ranney, a hotel proprietor at Skagway has organized an expedition to investigate the report. An effort will be made to exhibit the find at the World's Fair. The body is said to be 20 feet high and the tusks more than a foot thick. The only other complete specimen ever obtained is now in St. Petersburg.

St. Paul public school pupils will use 40 quarts of black ink in preparing their specimens of penmanship and written work for exhibition at the World's Fair. When the requisition for the 40 quarts was made the president of the school board thought the allowance was too lavish. But when he was shown that 40 quarts was less than an average of one quart to a school he promptly allowed the request.

"WE ARE COMING NOW."  
"WAIT A MINUTE."

### Suicide Prevented.

The startling announcement that a preventive of suicide had been discovered will interest many. A run down system, or dependency invariably precede suicide and something has been found that will prevent that condition which makes suicide likely. At the first thought of self destruction take Electric Bitters. It being a great tonic and nerve and will strengthen the nerves and build up the system. It's also a great Stomach, Liver and Kidney regulator. Only 50c. Satisfaction guaranteed by H. H. Bateman, Druggist.

### Meat Cause of Appendicitis.

[Translated from the Revue Scientifique.] Several interesting communications were recently made to the Academy of Medicine with reference to the obscure cause of appendicitis. The researches undertaken by M. Chauvel with reference to the appendicitis in the army during recent years, show that the disease is very much less frequent in Algiers and Tunis than in France, for out of 49,000 men—French and European—in Algiers and Tripoli
