A distinguished class of citizens rode the Maccabee goat last Saturday as follows: N. A. Patterson, Iver Udgard, S. O. Hagen, A. E. Carlander and Phil. Reimer, and as a consequence none of them are doing much sitting down for a few days. The Maccabee lodge are great hustlers and very few escape if the boys go after them.

Miss Florence Shue entertained a party of young folks at her home last Saturday night, sixteen being present. Progressive whist was played and a very nice time enjoyed. A delicate lunch was served at the conclusion of the game to which those young folks testified to its goodness by the rapidity in which they put it out of sight. A very pleasant time is reported.

The Northern Pacific has been having all kinds of fun up this way since last Thursday's storm. They sent up a snow plow pushed by two engines Saturday and went into a ten foot drift just north of Jessie. The two engines and the caboose left the rails and it was necessary to send up a wrecking train which was done Saturday night and the whole outfit worked until Tuesday before they got out of it, in the meantime Jessie, Binford and McHenry were without mail for four days, which is pretty tough.

Mr. and Mrs. R. C. Cooper and Mr. and Mrs. J. N. Brown returned home last Monday from California. It was quite a change for them to leave a land of warm sunshine to drop into some snowdrifts—but then they are used to it and are glad to get home.

Ben Anderson is a crackerjack and don't you forget it. All afternoon and evening last Thursday he sat on the seat of the bus and drove a four horse team all through the blinding storm gathering up ladies from all over town for a party and then getting them back again. It was certainly a tough job and friend Ben stuck to his job in good shape got his loads of fair charges home in safety without tipping over once. He is strictly a right.

CHRISTIANSON & FREDRICKSON.
McDermott's old stand.

Our old friend Harry Wasser, of Jamestown, has been nominated for sheriff of Stutsman county. The Albert says: The nomination of Harry Wasser for sheriff was a popular one. He is an old resident of Jamestown, a railroad man by occupation, and has always taken an active citizen's interest in the welfare of the town. With an extending acquaintance around the county it is predicted he will make a winning candidate for the office.

They say old man Bassett, of Valley City, with his gramophone, has been doing a stunt with Miss Tillotson, the woman with a chronic sore throat. We had the pleasure of listening to the old man's music over the long distance wire a few evenings ago and we venture to say that his gramophone music was the best part of the entertainment. Since the recent convention in Barnes county, the old man has been playing dirges. Cheer up, Charley, the sun can't always shine. Then again, he who laughs last laughs best—we will have a laugh coming by-and-by.

Erick Erickson, successor to Berg Bros. & Co., Cooperstown, N. D., is still in the machine business at the old stand, and will be glad to see all the old customers of the late firm and also new ones.

Farming operations in this section have been set back considerably by the recent storm and bad weather following and the prospects are that very little will be done until next week under the most favorable conditions. The storm was not confined to North Dakota but South Dakota, Minnesota, Iowa, Nebraska and even old Missouri was in the grip of King Blizzard, while in other states such as Texas a cyclone or two carted around and wiped out property and life. It would be well for those new fellows who have a kick to make on North Dakota to read the newspapers and they will find out that "down home" they are having it just as bad. This section of the great banana belt will stack up with the rest of 'em when we gather in the sheaves.

Anton Christianson and Miss Tillie Rood left Monday afternoon for Christiania, Norway. They will visit their relatives and friends in that country for two or three months and expect to get back here about July 1st.

Mail Carrier Rood on Route No. 1 is earning his money these days. The condition of the roads and the river being high making it impossible to serve the entire route for a few days so that patrons will please try and be patient. Mrs. P. R. Trubshaw entertained thirty lady friends at her home last Thursday afternoon from 3 to 6 and we venture to make the assertion without any fear of contradiction that those ladies were never so strenuously entertained before. The hostess had been waiting for nice weather to give this party and up to that day everything promised well but on that day the weather man switched in the storm plow and we had a blizzard with a heavy fall of snow and here is where the fun came in. It was necessary to use the bus drawn by four heavy horses to get the ladies to the house and back and they never had such a ride in their lives. However, all is well that ends well and they each and every one had a nice time. Progressive dominoes and hunch were played and the ladies enjoyed themselves thoroughly. Mrs. Trubshaw had prepared a very fine luncheon which was also enjoyed. The party was composed of a jolly lot of ladies and no mistake and we are inclined to think that they enjoyed the ride through the snow drifts even if they were afraid of tipping over occasionally. Each one declared that they had had a lovely time and we feel sure that they will not soon forget that April party. Mrs. Trubshaw had bouquets of red and white carnations for decorations.

FORMALDEHYDE
FOR TREATMENT OF DISEASES OF FIELD CROPS.

AS RECOMMENDED BY
PROF. H. L. BOLLEY,
Botanist of the Government Experiment Station at Fargo, N. D.

WHEAT SMUT. Mix one pound of 40 per cent. Formaldehyde with 45 gallons of water. Apply this to the seed grain in any manner that will moisten all the grain over all the surface.

OAT AND BARLEY SMUT. Use same mixture as for wheat, but more care should be used to see that grain is wet enough to soak through the chaff.

FLAX SICK SOIL OR FLAX WILT. Flax does not exhaust the land. A parasitic fungus is found on the seed and if planted without treatment will spoil the land for Flax. You can't get the fungus out of the soil, but you can prevent it from going in with the seed. Treat with same solution as for wheat. Use the spray and shovel method. A small force pump set to throw a fine spray gives the best result. Apply about one-half gallon of solution per bushel.

POTATO SCAB Use same mixture as above. Soak whole potatoes for two hours before cutting them for planting.
Use only the best grade of Formaldehyde.
