EXECUTIVE

COMMITTEE

mmigration Association Committee Name Sub-Committee and Geo. H. Phelps Association Secretary.

The executive committee of the North Dakota Immigration Associaon completed the business of its first meeting last night. George H. Phelps was the unan-

mous selection of the committee. for permanent secretary of the association. The more potent questions discussed were transportation, publicity and American Immigration Association, ing of the school house on Sec. 16-145the various suggestions and plans outorganization of the association, held of schoolhouse on Sec. 23-145-60. in this city April 1, the following com-

mittees were appointed: Transportation-H. P. Smart, Jamestown; T. J. Baird, Lakota; W. L. Williamson, Lisbon.

Advisory Transportation Committee -J. B. Streeter, Larimore; J. B. Folsom, Fargo; H. N. Stabeck, Bottineau; C. Case, New Salem and I. J. Foster, Bathgate.

Publicity-W. A. Scott, the presi dent, Fargo; C. C. Connelly, Devils Lake, and R. S. Adams, of Lisbon.

The executive committee was ap pointed by the president to confer with the executive committee of the American Immigration Association on the subject of the alliance of the two associations or the forming of working plans for a unanimity of action in the furthering of the object of the as-

An auditing committee consisting of Emery Ohnstead of Willow City, Wm. Glass, of Cooperstown and Morton Page of Fargo was appointed and the secretary was authorized to prepare articles of incorporation. The committee then adjourned subject to the call of the president.

This movement is in the interest of the entire state of North Dakota. Sufficient interest exists in this under taking to have induced the executive committee thereof to come to Fargo from a distant of a good many miles, from all over the state, to attend this meeting. There has been unprecedented prosperity in this state for the last three or four years—many think brought about by an era of good crops. However, the rise in the value of farm lands has had much to do with it. This state is a young state and a great deal of business is done in it on credit -the basis of this credit is the value of the land behind the indebtedness, therefore it is of interest to everyon in the state to keep up the value of their lands.

The Canadian northwest is thoroughly organized and is reaching out after new settlers in all directions. The southwest is also thoroughly organized is paying out large sums of money to place the advantages of that section before the people of the older states and the new comers from across the big pond. This means that North Facts You Ought To know. Dakota must bring before the people of these United States, and other countries, her advantages.

For this purpose this association makes its bow to the public, asks its support and co-operation, and hopes by attending strictly to its business in hand and by treating each section of the state absolutely fair as against other sections, to win in dollars and place those dollars where they will do good to the entire people of the state. Our millets are strictly southern grown, also our fodder corn. We offer nothing else. Being raised in the south they are used to a long season, hence do not mature quickly, making more growth and feed. Our flint corn is northern grown and kiln dried, and must not be compared to cheap, field cured seed. Don't forget to let us figure with you on that car of grain. Remember that we can clean your seed for you, take the feed out of your wheat or flax and return the same to you.
