Mrs. Hall was in the rig and could not jump out on account of the bicycle, however, the team finally ran into some trees and the horses were held fast and she was enabled to get out without any injury. Charley is pretty lame from the kick he received but thankful that he and his better half escaped so luckily.

3,000 bushels White Russian Seed Oats for sale by J. N. Brown on the farm.

There was a ball game here last Monday at which time the Hannaford aggregation took Jim Sinclair's colts into camp to the tune of 14 to 4. It was a good game for the first four innings neither side having any license to claim the game. Oswald Melgard pitched for the home team and his work was all right, however we are of the opinion that nine innings is too much for him to pitch until he has developed his arm more. The boys got badly rattled about half way through the game and the Hannaford fellows had no trouble in clinching the game. Willie Sinclair pitched a good game for the visitors nevertheless nine hits were made off him—enough to win out had our team played ball. We have lots of good material for a club and we think that notwithstanding the trouncing the boys got Monday they will yet be in shape to make it more interesting for the creek town fellows. What they need is more team work and this they will get as time goes by. The boys play at Binford next week and we hope they will be able to make a better showing at that time.
