The Woodman picnic at Binford was a success last Friday notwithstanding that it had rained every day for a week and threatened to rain that day. The weather man changed his mind, however, and the sun came out during the afternoon and made nature more cheerful. The Cooperstown ball team, together with a few of our choicest rooters, went up to furnish amusement to the Binford boys. It was a good game and while the locals were defeated to the tune of 7 to 5, marked improvement was shown in the team and we think by having time we shall be in a position to win a game. The boys report a good time and the Binford people doing every thing possible to make things pleasant for all.

The Hannaford-Enterprise says that some Cooperstown toughs got into a drunken brawl at that place a few days ago and smashed out a few window lights. Surely the Enterprise must be mistaken. We would hardly think that Cooperstown people would do such naughty things as that. It would be a good idea for the Enterprise to give their names in future—it would be more apt to make them good.

Three nice dwellings for sale cheap on reasonable terms. Inquire of the undersigned. 19 R. C. COOPER.

The Fire Department is over at Carrington this week attending the 21st annual tournament of the state firemen. The boys hope to bring some of that good prize money back with them. Geo. Macconnell, the poet of the team, produced the following which is printed on the badge:

We hail from Cooperstown,  
A lively place 'tis said;  
And if you see us in a race  
Put your money on the R. E. D.  
Then thinking that our boys might  
Possibly be a few seconds short on  
Some of the contests we append the  
following:  
But sometimes we might make a mistake  
And in risky places tread,  
By betting all our good hard cash  
Could lose it on the red.

Encouraged by the success of their midsummer carnival of last year, the Commercial Club of Fargo have arranged for another of these unique entertainments for the week of July 11th to 16th. The celebrated Mundy Show has been engaged for this occasion, which is of itself a sufficient guarantee of excellence. A glance at the Club's announcement reveals the fact that many attractions apart from the Carnival proper are in store for Fargo visitors, among which we note a baby parade in which the ladies of Fargo are taking an unusual interest. The novelty of this feature alone should prove a strong drawing card.

Everybody should make war on the dandelions or in a year or two their lawns will be covered and ruined. It is no use one doing it while neighbors all around allow the pests to go to seed. Some people think that we are alarming ourselves unnecessarily over this matter but if they had seen beautiful lawns ruined by dandelions they would think differently. Get after them.

Prof. W. E. Hoover delivered a lecture in the Baptist church last Thursday evening on the subject "Does Education Pay." The lecturer put considerable time and thought into this lecture and is one that it would pay every one to hear. He went on to show what education would do in all walks of life and contended that a good education certainly did pay if proper use was made of it by those acquiring it. We have educated men and women in every walk of life but they are failures because they fail to apply their talents to a proper use. The educated young man or woman who wants to get there certainly stands a good show if they have the proper amount of goaheadativeness. Prof. Hoover is a very pleasing speaker and his lecture was very much enjoyed and appreciated.

Talk about wet weather, don't mention it. It has rained every day lately and if it don't let up pretty soon the fence posts will commence to sprout. However all kinds of crops and vegetation are sprouting right along and growing fast and Griggs county never had better crop prospects than at the present time.

John Hogenson escaped instant death in a miraculous manner one day last week. He was walking along with a loaded gun in his hand with the trigger cocked. A twig or something caught the trigger and the gun was discharged the bullet plowing up through the cheek and over the eye grazing the forehead. Luckily his eye escaped injury and he had what might be termed a very close shave. Dr. Brimi dressed the wound and we are of the opinion that Mr. Hogenson will be very careful how he carries a gun in future.
