The entomologists of the agricultural department at Washington are disposed to think that there is a general tendency to make exaggerated estimates of the amount of damage done to the cotton crop by the cotton boll weevil. Some of these estimates have been as high as \$55,000,000. The census office, in its final bulletin on the quantity of cotton ginned in the United States of the crop of 1903, estimates the total loss due to the boll weevil at \$49,272,989. The estimate of the bureau of entomology is not over \$15,000,000.
