- 1684. Cider Vinegar: Park, Grant & Morris, Fargo; an imitation product.

GOVERNMENT TAGS ITS FISH.

Object is to identify and keep track of the Finny Tribe.
The United States fish commission has contracted the small boys' habit of tagging fishes. Metal tags are fastened to marine fishes, which are let loose in the ocean with the idea of identifying them in case they are caught at any future time.

The tag, which is light and made of copper, is securely fastened by a wire passed through a fin near its junction with the body. No two tags are alike, each having its own markings. Fifteen hundred cod were thus duly tagged and released last spring on the New England coast. The object of the tagging is to ascertain the rate at which a cod grows, the frequency of its spawning and the extent of its travel in the ocean.

The same experiment is being tried this year with young salmon, artificially hatched, for the rivers of the Pacific coast. The fishes are "fingerlings," about three inches long. In this way it is expected that the age at which the salmon comes from the sea to spawn will be ascertained; also the rate of growth, and the percentage of fry that attain maturity. The experiment is an interesting one, and has an obvious bearing on fish culture problems.

Castor Machine Oil.

We have got hold of 500 Gallons of Castor Machine Oil the other fellow did not want after he had ordered it. His loss is our gain. This is regular 40c oil and we are putting it on the market for

25c Per Gallon

to close it out. Try it and be convinced that the Oil and Price is right. Price good only while stock lasts.

DR. L. S. PLATOU, of Valley City, graduate of Christiania University, Norway, will be in Cooperstown July 29th and 30th for the purpose of practicing his profession. Regular visits last Friday and Saturday of each month.

That strawberries—and elegant ones too—can be successfully raised in Cooperstown and North Dakota was demonstrated last Friday when F. D. Williams brought to town a nice lot of Dakota's Pride, raised by himself the largest one in the lot measuring six inches in circumference. The berries were very fine and of a rich flavor. There is no reason why everybody should not raise their own strawberries.

Greenview Herd Poland-Chinas.

Young stock for sale sired by Rockwell Chief by Dakota Chief, the only state fair graduate in the northwest. Orders booked for young stock at any time.
