A great international scrap occurred on Burrell avenue Monday evening in which a representative of Norway and a son of Germany took part. The whole affair started in fun but got to be serious as the affair progressed. It resulted in the German getting fired into the mud which so enraged that representative of the Kaiser that he swore out a warrant for King Oscar's former subject and the Hague tribunal presided over by Judge Rearick thought that in as much as Germany had been bespattered with mud he would assess Norway's son ten plunks of lawful money of the United States based on the gold standard. In our opinion the case never should have gone into court. The parties interested were E. J. Blystad and Otto Pirchardt.

Representatives of the farmers elevators along the branch held a meeting Saturday afternoon to discuss the feasibility of joining the farmers exchange at Minneapolis. A number of the farmers elevators in this state have joined but it was the opinion of those along this branch that they could hardly afford to do it this year so they did not join. It has been quite a pull on our farmer friends this summer in getting their creameries and elevators established and a majority of them felt as if they could not afford this additional expense at this time.

The Government does much toward making the banks of the country safe. A national bank is examined periodically by a national bank examiner and a state bank by a state examiner. It is a common error, however, that the U. S. Government guarantees the solvency of any bank. It only guarantees the paper money issued by banks and secured by U. S. bonds. A bank is in every case as strong as the men who own and manage it. The STATE BANK OF COOPERSTOWN wishes to thank its patrons for the confidence bestowed. At the same time its officers wish to say to the public that any new business will be duly appreciated and conscientiously attended to.

There are no other milk cans made that can equal in wearing qualities the genuine

## BUHL CANS

They are tinned to stay tinned, and put together to stand years of hard service. Other cans crack easily, become dented, and being lightly tinned soon rust and go to pieces. Not so with the "Buhl Factory," "Improved Elgin" and "Genuine Iowa." They will outlast any other cans on the market, and are thoroughly and quality tested. Remember, the Buhl is the only can in the world that is made with the Buhl "Victor" Can Breast and the Buhl "Victor" Breast Hinges. As there are many inferior imitations of this can, we stamp all cans with the Buhl Can Trade Mark. Look for it. Sold by all first-class dealers. Ask about them, or write us direct.
