Parker "I consider myself irrevocably and firmly fixed." He is so firmly fixed by August Belmont and David Bennett Hill that he won't dare open his mouth unless he has their permission.

The state election held in Vermont last Tuesday resulted in a big victory for the republican party who will have a majority of nearly 32,000. In Arkansas the republicans also made big gains cutting down the democratic majority by over 10,000. These are only indications of what will happen in November. In Vermont the democrats made a big fight to keep the majority below 25,000 as a republican president has never been elected when Vermont gives under 25,000 majority for the republican ticket and when the majority is greater than that it is a safe bet that the republican presidential candidate will win. The result in Arkansas is very disappointing to the democrats and the indications point to Roosevelt's election by a bigger popular vote than McKinley received. There is no joy in the camps of Belmont, Hill and Parker since last Tuesday.

The only issue put up by the democrats is Mr. Roosevelt's personality and the more they do that the more votes he will get. Mr. Roosevelt has been president two years and the nation has not been put into any dan-

ger nor will it be if he were president forty years. We used to hear from democratic orators that if the gold standard was maintained and the Phillipine policy maintained revolution would follow and the country would go to pieces. The gold standard has been maintained and is now the policy of the democratic party, the Phillipine policy has been maintained and that country is doing well and still the United States is happy and prosperous. No sane man thinks for one minute that the election of Theodore Roosevelt would be disastrous to this country and we believe he will be elected. The republican party is the party that does things and the party of progress. You know just where that party stand all the time and it is never looking for new and meaningless issues to bunco the voters.

McHenry Butter Scored High.

Martin Donevan, McHenry's popular buttermaker, sent a tub of creamery butter to the Minnesota State Fair which scored 94 points, which is exceedingly good as most of the cream was three days old before it was churned. There was none that scored higher in the state and only one other that reached the 94 point. There were 332 entries for butter. The creamery association of McHenry should feel proud of its first record as it stands second to none in the state.—Tribune.

A New Plan For Taking Final Proofs

All final five year and computed proofs made in land cases not taken before the register and the receiver of the local office are now subjected to examination by a special agent, and he will also be present at such points as may seem desirable or necessary when the testimony in such cases is given before the officer designated at the respective county seat.

The following are the dates fixed at the various county seat towns for the immediate future, when the special agents will examine proofs in the vicinity:

LaMoure, Oct. 19.
Lisbon, Oct. 21.
New Rockford, Oct. 25.
Carrington, Oct. 26.
Cooperstown, Oct. 28.
Jamestown, Oct. 27.
Ellendale, Nov. 2.
Forman, Nov. 11.
Wahpeton, Nov. 14.

Will Be Here No Doubt.

A couple of female peddlers of "hand-made" lace have been, and perhaps now are, reaping a rich harvest among housewives on the southside who are now wishing the women had their laces and they their dollars back again. One lady was so susceptible to the oily tongued individuals that she bought \$7.50 worth and borrowed the money for the purpose, but words cannot describe her feelings when a friend called in and disclosed to her how she had been cheated. It is a neat game that is being played and the wonder is some smart woman has not exposed it. As one lady put it last night, if the susceptible creatures who are so easily tempted would just give the matter a thought they could see through the game and if there were such bargains lying around loose the legitimate dealers would have a chance at them. The women tell the story

that the laces were made in a convent by sisters of mercy to help along their works of charity. Sisters of mercy who are making handmade laces know its value and they also know of markets where it can be disposed of at something like its real value.—Forum.

More Riots.

Disturbance of strikers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by utter collapse, unless a reliable remedy is immediately employed. There's nothing so efficient to cure disorders of the Liver or Kidneys as Electric Bitters. It's a wonderful tonic, and effective nerve and the greatest all around medicine for run down systems. It dispels Nervousness, Rheumatism and Neuralgia and expels Malaria germs. Only 50c, and satisfaction guaranteed by H. H. Bateman, Druggist.
