Corner Bergstrom and Sheriff Flynn went out into Broadview township last week and brought back the skeleton of a man that had been found in a gravel pit. The body had been buried about eighteen inches from the surface and several days ago was dug up by a man who went after a load of gravel. No clue as to the identity of the man found has yet been secured. Coroner Bergstrom informs us that a man disappeared from that neighborhood very mysteriously about fourteen years ago and it is thought that the bones found might be his. The officials are trying to obtain information in regard to the matter but it is doubtful if anything tangible can be secured as there was nothing found to indicate who it was, the bones being perfectly clean and dry, not even a bit of cloth or clothing being found.

The Hannaford Republican Club is certainly a live organization and puts the rest of its neighbors on the hike. Last Saturday night the club had a sort of opening rally at which time Frank Gladstone, candidate for states attorney, was present and made a short but affective address. A. M. Baldwin opened the ball with a rousing talk on national issues with a few salient points on local affairs that were heartily received. Senator Crane, M. G. Evenson and P. R. Trubshaw also punctured the victory laden air with a few remarks. For the Hannaford side President Mulroy roasted the visitors in his usual happy manner but got roasted in return so that honors were easy. The Hannaford republicans are certainly enthusiastic and if they all follow suit in every precinct old Griggs will roll up a great big majority November 8 for the party that does things and the party of progress.
