ALBERT LARSON.

"Let us compare candidates," said Miss Democracy to a stalwart young Republican.

"Comparisons are odious," he replied, "but since you insist, what has your candidate done that he should aspire to the presidency?"

"Nothing. He is a man of peace. Pray what has yours done?"

"He has done everything that came his way with all his mind and heart and strength. He has the soul for action that would put life under the ribs of death."

In one crisp sentence of eight words of his letter of acceptance, President Roosevelt has given the first premise for a conclusive syllogism:

First Premise—"A PARTY FIT TO GOVERN MUST HAVE CONVICTIONS."

Second Premise—The Democratic party, from Judge Parker down to Tom Taggart, has no convictions.

CONCLUSION—Therefore the Democratic party is not fit to govern.

And there you have the process of reasoning that will decide this election.

A Bold Holdup.

The attitude of some editors not far from here put us in mind of a bold attempt to hold-up the republican central committee or the candidates. Principles seem to be a secondary consideration.

Mount Vesuvius has started to erupt again and is throwing fire and hot air several hundred feet skyward. Democratic orators have also erupted and are throwing considerable hot air abusing president Roosevelt.

When we increase our population we increase our national revenue in proportion. Unless we reduce the rate of taxation we would double our national revenue if we doubled our population. As president Roosevelt said in his message: "The western half of the United States would sustain a population greater than that of our whole country to day, if the waters that now run to waste were saved and used for irrigation."

Like the Indian, who, when unable to find his camp and it was suggested he was lost, replied: "Me no lost, wigwam lost," so the Democratic party insists, notwithstanding its constant change of front, that the country, not the party, is lost. The Democratic party, without a fixed policy, would be as safe a guide as the Indian in a strange wilderness.

The republican party has nominated a local county ticket that is worthy of the support of every member of the party in this county. The candidates from John L. Houghton who heads the ticket, down to the last constable on it, are men of ability and integrity and if elected the party pledges that each and every one will perform his duties satisfactory and efficiency, and what is more outside of Sundays will not only be in a condition to do so but will be on deck every working day in the year. With such men on your ticket, why not elect them to the office for which they have been nominated.

The legislative ticket for this district is composed of Mr. Nels Hemmingson of this county, and Messrs. Stavens and Palfrey, of Steele county. Those who know Mr. Hemmingson as we have known him for the past nineteen years know that he will make the district a first-class representative and one who will be found doing his duty for his constituents at all times. Messrs Palfrey and Stavens were members of the last house and their record is good. The three will undoubtedly be elected and will work together for the good of the whole district. Senator Maynard Crane is a hold-over and will be found as usual doing the best he knows how—and he is a hustler—for his constituents. It is doubtful if the democrats put up an opposition legislative ticket.

Dr. A. A. Ames, the notorious ex-mayor of Minneapolis, was beaten for a nomination for congress last week. The people got a crack at him through the primary election. The smooth Ames will now prepare himself for another trial in the district court and may win a term at Stillwater yet.

Seval Friswold the republican nominee for county treasurer, is in every way qualified and capable of looking after that important office personally and if he is elected he will certainly do so. He has no business ties to attend to and will be personally county treasurer. He should be elected by a handsome majority.

Hon. John S. Frame, of Fargo, will open the campaign for the republican party at the opera house in Cooperstown next Monday evening at 8 o'clock. Mr. Frame will discuss the political issues of interest to the people in an intelligent and interesting manner. We hope all persons of all political creeds will turn out and hear what the gentleman has to say.

Some people are born rich others are born lucky. Editor Curry of Binford belongs to the latter class and is in line for congratulations. He has been threatened with a libel suit at the hands of States Attorney Tufts who wants Curry to show him. The Times has called him and it is now up to the genial Tufts to either raise the ante or lay down his hand.

The Democratic party has been fatally wrong on every phase of the money question from the resumption of specie payments after the war to the establishment of the gold standard, both of which it opposed. It is constitutionally unfit to deal with financial questions.

Organization does much to maintain the wages of labor, but organization of wage-earners does not provide consumers. Consumption of coal is always greatest when mills and factories are running full time. It is the policy of the Republican party to protect all industries by wise and beneficent laws, while it has been the policy of the Democratic party, as evidenced by the last Cleveland administration, to provide as much work as possible for the artisans of other countries by removing the protection the tariff affords American workmen.

Parlor's Political Conference. It is announced, with a flourish of trumpets, that Richard Olney, who was in President Cleveland's cabinet, has visited Judge Parker, spending two hours with him at Rosemount. Nothing is said about the visits of "Blue-Eyed" Billy Sheehan of Tammany fame, who is a near neighbor of Judge Parker, and who can run in any time. It would take many pounds of Olneyism to cure one ounce of Sheehanism.

The Policy of Silence. A German proverb says "speech is silver, silence is gold." The Democratic party evidently has come out for gold if that means silence on the money question, and it certainly has gone back on silver, if that means any speech positively committing it to friendliness to any sane system of finance.

Democrats Believe Roosevelt. During the last session of congress a Democratic senator arose in his place and said: "When the president affirms that this government had no part in the revolt in Panama, that settles it, so far as he is concerned. I believe him."

He Hasn't Leafed. The American secretary of state has accomplished about all that has been attained by the great diplomats of the world within the last four or five years. In other words, John Hay hasn't done any "leafin' round the Throne."

Under the Republican policy of protection our home market affords our manufacturers and producers the best market in the world, even if we did not sell any of our products abroad. But protection has also made us the greatest exporting nation in the world.

China and India are "cheap" countries. Human labor is held very low in these lands and the result is that the masses are constantly steeped in poverty and menaced by starvation. In spite of the so-called cheapness the people do not get things.

Christie Gets Seven Years.

John Christie, who was arrested at Hope, N. D., and who confessed that, with John Hammond, he held up the North Coast Limited passenger train of the Northern Pacific at Bearmouth last June pleaded guilty at Phillipsburg to the charge of grand larceny and was immediately sentenced to seven years at hard labor in the state prison. Christie heard his sentence with indifference. The train robber withdrew his former plea of not guilty and waived statutory time for passing sentence. William Wallace, attorney for the Northern Pacific, and Secret Service Agent McPetridge were in court ready to conduct the prosecution.

Hammond who is the confessed pal of Christie in the holdup of the North Coast Limited, reached Phillipsburg last night in custody of Sheriff Jeff O'Connell of Helena. Hammond will be tried on a charge of murder, for the killing of Engineer O'Neill at the time of a previous holdup of the North Coast Limited at Bearmouth. Christie will appear as a witness against Hammond.—Mpls. Journal.

More Riots.

Disturbance of strikers are not nearly as grave as an individual disorder of the system. Overwork, loss of sleep, nervous tension will be followed by utter collapse, unless a reliable remedy is immediately employed. There's nothing so efficient to cure disorders of the Liver or Kidneys as Electric Bitters. It's a wonderful tonic, and effective nerve and the greatest all around medicine for run down systems. It dispels Nervousness, Rheumatism and Neuralgia and expels Malaria germs. Only 50c, and satisfaction guaranteed by H. H. Bateman, Druggist.
