WENT TOO MUCH BY NAME

Lady Hotel Guest Resolves Some En- Lightment from Colored Waiter.

A woman lives at one of the Kansas City hotels who has the reputation of being rather finicky and hard to please in the manner of food.

"George, what do you mean by calling this ice cream pudding? There isn't any ice cream about it, and you know it."

"Yes'm," said the waiter. "I know dere ain't no ice cream in it. Dat's jes' a name they give it. I do know why."

"Well," she continued, "I think that if they give a dish such a name they ought to make it conform to the name, and if you call this ice cream pudding, you ought to bring some ice cream with it."

"Yes'm," answered the servitor, "but you know we can't alius do it that way. You know we don't bring a cottage in with cottage pudding."

The waiter's reply brought a burst of laughter from the people who heard the conversation, and since then the woman's criticisms of the menu have been few and infrequent.

San Francisco's Climate. Responsible for Some Marvelous Features, Including the Hurmorists.

In San Francisco they are telling a story that is worth repeating, and will be appreciated by those who have encountered the climate of the Golden Gate City.

"Climate," answered the friend, briefly. "A little later he cried out: 'Arrah! the complexion of those ladies is so beautiful. Why, I've never seen such a sight before. The Irishman's subsided and said: 'Now, San Francisco isn't exactly a prairie, and not many moments passed until she was surrounded by the girls and their companions. They all called out there: 'Borra, said the visitor, and how d'ye think O'm going to get up that? 'Climb it,' said the first girl. 'The Irishman stopped again to let his companion. The girl said: 'Seems to me to be every thing but climate, old fella.'"

Especially for Women. Champion, Mich., Jan. 9th.—(Special)—A case of especial interest to women is that of Mrs. A. Wellart, wife of a well-known photographer, who has been given in her own words:

"I could not sleep, my feet were cold and my limbs cramped. Mrs. Wellart stated: 'I had an awful hard time across my kidneys. I had to get up three or four times in the night. I was very nervous and fearfully despondent. I had been troubled in this way for five years when I commenced to use DODD'S KIDNEY PILLS, and what they caused to come from my kidneys will hardly stand description. By the time I had finished the box of DODD'S KIDNEY PILLS I was cured. Now I can sleep well, my limbs do not cramp, I do not get up in the night, and I feel better than I have in years. I owe my health to DODD'S KIDNEY PILLS. My women's ailments caused by Diseased Kidneys; that's why DODD'S KIDNEY PILLS always cure them. I have never since had any trouble of the kind."

Miss Whittaker, a prominent club woman of Savannah, Ga., tells how she was entirely cured of various troubles by the use of Lydia E. Pinkham's Vegetable Compound.

DEAR MRS. PINKHAM:—I heartily recommend Lydia E. Pinkham's Vegetable Compound as a Uterine Tonic and Regulator. I suffered for years with irregularities and Uterine troubles. No one but those who have experienced this dreadful agony can form any idea of the physical and mental misery those endure who are thus afflicted. Your Vegetable Compound cured me within three months. I was fully restored to health and strength, and now my periods are regular and painless. What a blessing to be able to obtain such a remedy when so many doctors fail to help you. Lydia E. Pinkham's Vegetable Compound is better than any doctor's medicine I ever had. Very truly yours, Miss EAST WHITTAKER, 604 39th St., Savannah, Ga.

No physician in the world has had such a training or such a amount of information at hand to assist in the treatment of all kinds of female ills as Mrs. Pinkham. In her office at Lynn, Mass., she is able to do more for the ailing women of America than the family physician. Any woman, therefore, is responsible for her health. Write to Mrs. Pinkham for advice. Her address is Lynn, Mass., and her advice is free.

A letter from another woman showing that was accomplished in her case by the use of Lydia E. Pinkham's Vegetable Compound.

DEAR MRS. PINKHAM: I am so grateful to you for the help Lydia E. Pinkham's Vegetable Compound has given me. It seems to be a small favor to me, but an expression of my experience. Many years ago, suffering with weakness, inflammation, and a broken down system, made me more anxious to die than live, the Lydia E. Pinkham's Vegetable Compound soon restored my lost strength. Taking the medicine only two weeks produced a radical change, and two months stored me to perfect health. I am now a changed woman, and my friends wonder at the change, it is so marvellous. Since your, Mrs. MATTIE HENRY, 439 Green St., Danville, Va.

The testimonials which we are constantly publishing from grateful women prove beyond a doubt the power of Lydia E. Pinkham's Vegetable Compound to conquer female diseases.

\$5000 FORFEIT If we cannot forthwith produce the original letters and signatures above testimonials, which will prove their absolute genuineness. Lydia E. Pinkham Med. Co., Lynn, Mass.

REJECTS OFFICIAL CENSUS.

Leader of Church Federation of New York City Estimates Population at 4,000,000.

New York.—In a publication by the Federation of Churches and Christian organizations in New York city, the executive secretary, Rev. Walter L. Law, places the population of the city on June 1, 1904, at a minimum of 3,965,000, against the estimate of 3,809,117, as given by the federal census bureau.

The federation has scrutinized the method of the census, with the result that it cannot accept its figures for this city. The method employed by the federal census bureau would have made the population of New York in 1900 but 334,072 greater.

By our computations the minimum increase by 1910 is placed at 1,275,201. It is shown that New York city grew in 1870-1880 29.3 per cent.; in 1880-1890, 29.1 per cent.; in 1890-1900, 37.1 per cent. The federation, while rejecting the federal census bureau figures, believes its own figures are a minimum. It would, therefore, put the population of New York on January 1, 1905, at more than 4,000,000 people.

PATENT ON HEAT BLANKET

Alsation Perfects a Unique Light Covering Which Will Keep Out the Cold.

Paris.—There is hope for the man of woman who cannot manage to keep warm during cold weather. An Alsation engineer, Camille Herrgott, has invented a blanket which is always warm and takes no notice of the weather.

The heat is furnished by fine electric wires of special construction, woven into the material and heated by a small battery. The blanket cannot possibly take fire, as the wires would break before the heat became sufficient to cause that.

Mr. Herrgott is patenting his blanket in America and Canada, for he believes he will gain a fortune there, especially in the northwest and west, by the manufacture and sale of the blankets in these regions.

SHORT AND SHARP.

A bold character is often covered by a wig of prudence. At 49 a man knows about half what he thought he knew at 20. A silk hat alone helps many a rogue to pass as a gentleman. A servant of a household must have two or more women to share the work. The best way to feel for the poor is by putting your hand in your pocket. The longer the bride can avoid doing the cooking so much longer the honeymoon will last.
