**MARKS OF ILLNESS ON NAILS**

How Accident and Great Mental Anguish Are Also Indicated.

"One who makes a close study of finger nails will find many curious things about them to excite his wonder and interest," says an expert on such matters, "but none more so than the stories of physical condition told in their growth."

"You know that the nail of a person in good health grows at the rate of about one-sixteenth of an inch each week—slightly more than many authorities believe—but during illness or after an accident or during times of mental depression this growth is not only affected and retarded so far as its length is concerned, but also as regards its thickness. The very slightest illness will thus leave an indelible mark on the nails which may be readily detected as the nail grows out. If one has a sudden attack, such as acute rheumatism, which sends the temperature bounding upward to 104 or 105 within the space of two or three hours, it will be found on the nails, indicating the difference in thickness of growth between the time when health was enjoyed and the thin growth of the ill period.

"If the illness is one that comes gradually, like typhoid fever, for example, instead of a ridge a gentle incline will appear on the nails. Should one have an arm broken the thick ridge can be seen only on the fingers of the one hand, but in all cases of general sickness the ridge or slope appears on the fingers of both hands. When one has passed through a period of extreme excitement or mental depression, the fact will be imprinted on the nails either with an abrupt edge or a gentle slope, according to the acuteness of the mental influence.

"In no instance can the marks of illness, accident or mental condition be clearly seen on the nail until after the growth has carried the line beyond the white or half moon portion of it, but a week or two subsequent to any of these things the ridge or slope may be found on the nails, usually readily visible to the eyes, but if not the mark may be found by running the tip of the finger down any of the nails."—St. Louis Globe-Democrat.
