

PROVES GREAT POWER

When Regular Medical Treatment Failed, Dr. Williams' Pink Pills Cured Her Rheumatism.

Hundreds of people who have suffered from rheumatism have spent years of agonizing pain and misery. Some have had to give up their work, and others have had to leave their homes. It is fastened on them like a cruel hand. Mrs. Dinmore was not willing to believe in the ranks of the hopeless merely because her doctor did not know how to help her. Here is her story:

"Four years ago I suffered greatly with rheumatism in my hands and knees. After I had been sitting a while my limbs seemed so heavy I could hardly walk on the first attempt. So long as I kept moving I was all right, but just as soon as I stopped, something seemed to settle in my knees and make them ache. My hands were so bad I couldn't touch the palms of them on a flat surface; they were swollen and pained so."

"Did you call in a physician?"

"I doctored steadily for over a year; then one doctor said: 'You have taken medicine strong enough to kill almost anything.' Still, it did not kill me nor the rheumatism."

"How, then, did you get rid of it?"

"At different times I had read in various publications about Dr. Williams' wonderful Pink Pills for Pale People, and I finally decided to try them. I took them steadily for four months in accordance with the directions. By that time I was completely cured."

"Have you been free from it ever since?"

"Since then I have had but one slight return of my trouble, and a box or two of the same pills made me all right again."

Mrs. F. A. Dinmore lives in hearty enjoyment of her recovered health at Woburn, Mass., entirely freed from the grave anxieties that rheumatism always brings. When it appears in but a single joint it shows that the blood is in a faulty state in the whole body. It may at any moment break out elsewhere, and one of the dangers is that it may break out in the heart and then the result must be fatal. The only security is to keep the blood all the time in a perfectly sound condition.

Dr. Williams' Pink Pills make healthy blood. All other relief is superficial. This is thorough. These pills are sold by all druggists.

ALL CROPS GOOD IN WESTERN CANADA.

"Potatoes the Finest I Ever Saw."

Owing to the great amount of interest that is being taken in Western Canada, it is well to be informed of some of the facts that are bringing about the great emigration from portions of the United States.

The Canadian Government have authorized agents at different points, and the facts related in the following may be corroborated on application. At the same time they will be able to quote you rates, and give you certificates entitling you to low rates on the different lines of railway. The following letter copied from the North Bend (Iowa) Eagle, is an unsolicited testimonial, and the experience of Mr. Austen is that of hundreds of other Americans who have made Canada their home during the past seven or eight years:

"I presume some may be interested to know how we have progressed this year in the Canadian North-West. We have no complaint to offer. We have had a good year, crops were good and we have had a delightful season. I threshed from my place 8,650 bushels of grain. My oats made 65 bushels per acre and weighed 42½ pounds per bushel. My wheat made 31½ bushels per acre and is No. 1 quality. My barley made about 30 bushels of good quality. My crop is a fair average of the crops in the Edmonton district.

"All crops were good here this season. Potatoes the finest I ever saw, and all vegetables adapted to the climate. We have had a very fine fall but no exception to the rule as the fall season is, I think, the most pleasant of the year. We have had no snow yet (Nov. 9), and have been plowing and working the land preparing for an early seeding next spring. Last night the mercury dropped lower than any previous night this fall and this morning there is a crust of frost on the fields sufficient to prevent field work. No doubt many would imagine that Alberta had put on her winter overcoat before this and that the people were wrapped in furs, but it is only a question of time when this country will not be looked upon as an iceberg, but a country fit for the best of mankind to live in.

"We are now assured of a transcontinental railway, which is to be built to the Pacific during the next five years. The Canadian Northern road is graded to within seventy-five miles of Edmonton. It comes from Winnipeg, and will reach us next summer, so with one railroad already at hand, the second to reach us in less than a year, and the third to penetrate our city and open up this country to the west across the Rockies to the coast within five years, we surely have reason to believe that the country is progressing.

"Very respectfully,
"L. J. Austen."

IN OTHER LANDS.

At Thebes the annual average rise of the Nile is 40 feet.

Greece at present holds the European record for rapidity in the increase of population.

London's smallpox epidemic of last year cost the metropolitan asylums board close on half a million sterling.

Among the spots of war taken at Liangyang was a pet pigeon belonging to Gen. Kurapatkin. It is now in Tokio.

NORTH DAKOTA NEWS

Next Year's Wheat.

Wheat raising in the northwest next year will be conducted more scientifically than ever before, by present indications. The different elevator companies have tendered the free use of their elevators to farmers for the handling of seed wheat, and special seed trains, one of which has already started on the Soo line, will be run over the railroads.

The state agricultural stations in the northwest are taking unusual interest in the distribution of good seed wheat. In many of the farming districts, committees are being organized to procure good seed wheat. A canvass is being made in South Dakota to find how much will be required, and the needed quantity will be brought from North Dakota.

Owing to the high prices brought by wheat this year, farmers as a rule will make every effort to produce as much wheat as possible from each acre they sow. A heavy yield being to the interest of the railroads and the elevators, they are apparently doing all they can to stimulate this war of what many grain experts would call reform in wheat raising.

In South Dakota, grain men say, farmers will use for seed no wheat that weighs less than 55 pounds to the bushel. The committees appointed for the purpose of securing wheat of good quality for seed are turning their eye to North Dakota, where the quality last year was better, and the railroads have agreed to move the seed wheat at the bare cost of transportation.

The prediction of Professor MacMillan that if rusted wheat is used for seed, the crop will certainly be attacked again, it seems, has a good deal to alarm the farmers and stimulate them to use care in the selection of their seed wheat, although grain men as a rule think there is little danger from this source.

Baseball.

President D. J. Laxdal, of the Northern Baseball League, has decided to call a meeting of the directors of the league which will be held in Fargo Jan. 28.

At the meeting plans for the season will be discussed and a circuit committee will be appointed. This committee will be expected to report a meeting to be held on some date in February, at which time cities will be admitted.

There seems to be a unanimous sentiment among those interested in baseball to have the circuit consist of eight cities this season. Crookston is out of it for good, and there is a disposition to let Ashland, Wis., come in if that city so desires. St. Cloud and Wahpeton have been suggested as cities that would make up the eight necessary.

Plum Thickets.

N. S. French, of LaMoure, writes to the North Dakota farmer pointing out the advantages of plum thickets on the farm. The plum thicket, he says, becomes very thick, and makes a shelter for chickens and turkeys. The fruit is of considerable benefit to the farmer also. Plum tree thickets and branches of choke cherry bushes that grow at least ten feet high will form a better wind break than a tall growth with open spaces near the ground where the branches should be thickest. Some of the native plums raised in North Dakota are number one eating, and it is a matter of quite frequent remark by farmers from other states, why do not North Dakota farmers plant more wind breaks and trees around their houses and remove the bleakness of the prairie?

Raising Emmer.

C. W. Mott, general immigration agent of the Great Northern, has just issued an interesting pamphlet to the farmers of North Dakota concerning the raising of emmer, erroneously called speltz. Emmer and speltz are entirely different kinds of grain and are of German and Russian origin. The object of the pamphlet is to educate both old and new settlers in North Dakota concerning the culture of emmer, which, it is claimed, can be grown with great profit in that region.

Burned Out.

A farmer near Stanley, by the name of Mike Irmen, had an interesting time on his claim four miles south of that town. He had built a fire in a stove in the hen-coop and when he came again to look at it found the flames eating his chickens, so a savory brown. His blacksmith shop followed the hen house, plus oats, flax, tools and grain sacks.

News Notes.

The Portal telephone exchange keeps on enrolling new subscribers. Fargo is trying to raise funds for a Y. M. C. A. building, and it is stated that about \$20,000 is already pledged.

The barbers of Velsa have gone in to trust, according to a local paper. Why ought not that sort of thing to be made a cause for cancelling licenses?

Charley Myers met with an accident that nearly cost him his life, says the Cando Herald. He had gone out from the store to the engine room in the feed mill to start the engine. After starting it he stood watching the engine, as it was not exploding regularly, and in a few minutes he began to feel sick and dizzy. Not having any idea of the cause, he sat down on a chair in the room, thinking it would pass off in a short time. He finally recovered.

Judge Davis, of Minot, starts out by announcing that he will kiss no brides.

NORTH DAK. LEGISLATURE.

Long-Felt Want.

"Now, some select medicine was ought to get up a Register for Child and Fever," suggested the deep thinker.

"What do you mean? An acre cure?"

"Well, no; I mean a register that'll make the child come on warm days and the fever on cold days."—Cleveland Leader.

The Feeble Lad.

Indulgent Mother—John, I wish you'd quit sending that boy around on all sorts of errands. He's not a bit well lately and hardly able to get back and forth from the practice meets of his athletic club.—Baltimore American.

CAUSE AND CURE OF RHEUMATISM.

Shows by Numerous Cures Made by Dodd's Kidney Pills—They Cure the Kidneys and the Rheumatism Cures Itself—Remarkable Case of Maggie E. Decker.

Eagle River, Wis., Jan. 16th.—(Special)—That rheumatism is caused by disordered kidneys is proved by the cures Dodd's Kidney Pills are making in every state in the Union. They cure the Kidneys and the Rheumatism cures itself. A cure that has caused deep interest in this neighborhood is that of Maggie E. Decker. In speaking of it she says:

"I had kidney trouble and rheumatism, and was so lame I could not walk. I could not sleep, for I ached all over. I was in a terrible state and firmly believe that if I had not used Dodd's Kidney Pills I would be dead. I took nine boxes of them and they have done me more good than all the other medicines I ever took. Now my aches are all gone, I can eat and sleep and I am feeling good. I want all the world to know that Dodd's Kidney Pills cured me."

Pity the boy who, at his birth, is sentenced to idleness for life.—Chicago Record-Herald.

The U. S. Dept. of Agriculture gives to Salzer's Oats its hearty endorsement. Salzer's New National Oats yielded 194 bushels to the acre, per acre in 30 different States, and you, Mr. Farmer, can beat this in 1905, if you will.

The week of prayer was so successful at Jamestown that it is to be continued another week. And the people of Jamestown are probably in no greater need of prayer than the rest of us.

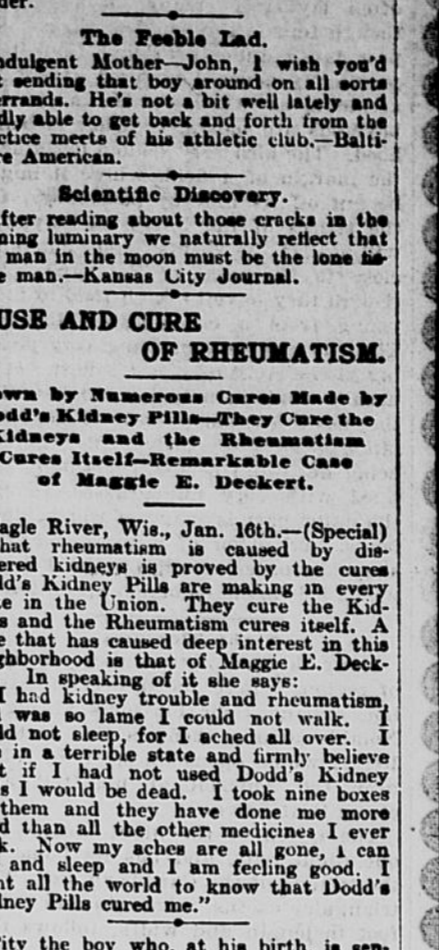

Extensive improvements are to be made at the Gladstone hotel at Jamestown in the spring, among them being the erection of a large annex which will add very materially to the capacity of the house.

There is a rumor out west that an electric line is to be built from Glendive to Buford to unite the Northern, Pacific and Great Northern roads. We don't like to appear skeptical, and hope the road may be built, but we have our doubts.

P. O. Peterson, the Chaffee storekeeper who was convicted at the December term of court on a charge of illegally selling liquor, was sentenced to ninety days in the county jail, \$500 fine and costs by Judge Pollock yesterday afternoon. Peterson will not appeal the case, but has commenced to serve his sentence in the jail.

THE DISCOVERER

Great Woman's Remedy for Woman's Ills.

Yours for Health Lydia E. Pinkham

No other female medicine in the world has received such widespread and unqualified endorsement.

No other medicine has such a record of cures of female troubles or such hosts of grateful friends as has

Lydia E. Pinkham's Vegetable Compound.

It will entirely cure the worst forms of Female Complaints, all Ovarian Troubles, Inflammation and Ulceration, Falling and Displacement of the Womb, and consequent Spinal Weakness, and is peculiarly adapted to the Change of Life.

It has cured more cases of Backache and Leucorrhoea than any other remedy in the world has ever known. It is almost infallible in such cases. It dissolves and expels tumors from the Uterus in an early stage of development.

It cures Irregular, Suppressed or Painful Menstruation, Weakness of the Stomach, Indigestion, Bloating, Flooding, Nervous Prostration, Headache, General Debility, quickly yield to it. Womb troubles, causing pain, weight and backache, instantly relieved and permanently cured by its use. Under all circumstances it invigorates the female system, and is as harmless as water.

It quickly removes that Bearing-down Feeling, extreme lassitude, "downy care" and "want-to-be-left-alone" feeling, excitability, irritability, nervousness, Dizziness, Faintness, sleeplessness, flatulency, melancholy or the "blues" and headaches. These are sure indications of Female Weakness, or some derangement of the Uterus, which this medicine always cures. Kidney complaints and Backache, of either sex, the Vegetable Compound always cures.

Those women who refuse to accept anything else are rewarded a hundred thousand times, for they get what they want—a cure. Sold by Druggists everywhere. Refuse all substitutes.

Only Sometimes.

"Sometimes," said Cholly, "I can't help wond'ring what some of us is living for anyway, don't you know?"

"Jerusalem!" exclaimed his rough old uncle, "do you wonder that only sometimes?"—Chicago Record-Herald.

Just in Time.

"Gracious! I can't find the right department," sighed the exhausted shopper. "Oh, my! I'm nearly dead."

(Undertaking department in the basement main.) suggested the prompt and attentive floorwalker.—Philadelphia Press.

Winter Tourist Tickets
