OPERATION AVOIDED.

EXPERIENCE OF MISS MERKLEY. She Was Told That an Operation Was Inevitable. How She Escaped It.

When a physician tells a woman suffering with ovarian or womb trouble that an operation is necessary, the very thought of the knife and the operating table strikes terror to her heart, and our hospitals are full of women coming for ovarian or womb operations.

There are cases where an operation is the only resource, but when one considers the great number of cases of ovarian and womb trouble cured by Lydia E. Pinkham's Vegetable Compound after physicians have advised operations, no woman should submit to one without first trying the Vegetable Compound and writing Mrs. Pinkham, Lynn, Mass., for advice, which is free.

Dear Mrs. Pinkham:—Loss of strength, extreme nervousness, shooting pains through the pelvic organs, bearing down pains and cramps compelled me to seek medical advice. The doctor, after making an examination, said I had ovarian trouble and ulceration and advised an operation. To this I strongly objected and decided to try Lydia E. Pinkham's Vegetable Compound. The pills did the trick, and all the bad symptoms disappeared and I am once more strong, vigorous and well.

Ovarian and womb troubles are steadily on the increase among women. If the monthly periods are very painful, or too frequent and excessive—if you have pain on swelling, low down in the left side, bearing down pain, leucorrhoea, don't neglect yourself; try Lydia E. Pinkham's Vegetable Compound.

Chance for Another Guess. A guest who went to pay his bill not long since at a fashionable Florida hotel, was given a statement which showed him indebted to the house to the extent of \$124. As he had been there only four days, and had had few extras, he thought it a little steep, but he extended a hope of opening up a fat roll, he heaved a huge bunch of bills to the cashier, with the remark: "Guess again. I've got more money than that."—Washington Post.
