The base ball dance given at the Opera House last Thursday evening was attended by about forty couples and a splendid good time was enjoyed by those present. The boys netted a few dollars to go into the general fund and will give an entertainment in the near future to swell the fund some more. There seems to be all kinds of base ball timber around here this spring and Cooperstown is liable to jar some of these other fellows before the season is over. Keep the ball rolling and let's get into the game.

Victor Valine who lives four miles west of Walum, met with a very serious accident last Thursday. He was dragging on the field and stepped in front of his horses to fix something about the harness when something frightened the horses and they ran away the harrow passing over Mr. Valine, one tooth penetrating the chest and injuring the lung and one rib was broken. Dr. Westley was called to attend him and after fixing up his injuries he was brought to town and is at the Arcade Hotel and is getting along nicely.

The terrible accident of last Saturday is another object lesson for parents who have boys. We have always contended that it is unsafe to allow boys to go around with guns and rifles and yet every once in awhile we hear of an accidental shooting. Grown people meet with these accidents, too, and in nearly every instance it has happened because they have had loaded guns or rifles in the buggies and they have been discharged by getting the hammer caught in getting out of a buggy or something of that character. Boys should not be allowed to wander over the country with fire arms.

The Griggs County Fair Association has decided to have their annual fair and horse races on Tuesday and Wednesday, August 1st and 2nd. There will be no Fourth of July celebration at Cooperstown this year so that our people will have a chance to attend the doings at some of our neighboring towns. The fair association, however, intends to make the stock exhibit and races worth coming to see and in addition some snappy ball games will be played probably. J. C. Flynn, has purchased, and now has in his possession, a span of fine Standard bred mares, black in color and six years old, and thinks he has one of the best spans of drivers in the state. Our genial sheriff certainly can go some and no mistake.

In view of the fact that the town is considerably in debt from last year's work, we are of the opinion that outside of fixing up the holes in our streets the rest of the road work better be cut out for this year.—it will never be noticed anyhow. All the dirt placed on our streets last year blew away.

It is all right to burn up your rubbish on the streets but it would look neater and better if our people would clean up the refuse after they get through. Those piles of burned rubbish and old tin cans on the Boulevard the prettiest street in town don't take very well and are unsightly. A minute's work with a wheelbarrow or a quarter handed to a drayman will do the business. Try it.

Hon. R. C. and Mrs. Cooper returned home last Tuesday after a winter's absence in California, Old Mexico and Colorado. Mr. Cooper is not looking as well as usual but says he is improving all the time, a statement his friends will be pleased to hear. Mrs. W. A. Merrell, of Fruita, Colo., returned with them and will be the guest of the Cooper's for some time. Mr. George Barnard, of Colorado Springs also came with them and will spend a month here recuperating his health.

The Ayrea schoolhouse was burned to the ground last Friday about one o'clock, only a few books and the teacher's desk being saved. It was Arbor Day and the teacher and scholars were cleaning up the yard and fixing up things generally. A fire was started to burn up the grass and rubbish and the fire got under the sills and those present were unable to get at it and as a consequence the building burned. There was no water at hand to fight the fire with. Some insurance was carried on the building but we have not learned the amount.
