H. P. Hammer has been having a little actual experience with his automobile lately and is ready to swear that for contrariness the auto beats a bucking broncho all to pieces. However he will be able to get lot of good work out of his red devil wagon just the same even if he has had a streak of hard luck lately.

The newspapers are telling of a woman in Kansas who dislocated her jaw, and recite as something wonderful the fact that "she was unable to close her mouth for a week." We have not heard of any woman in Cooperstown who has lately dislocated her jaw, and it is not believed there is one in the city who would be able to close her mouth for a week.

The teacher's institute will convene next week with Prof. Callahan in charge as conductor. Mr. Callahan is a popular favorite with the teachers of Griggs county, have conducted institutes here in the past. He is a great base ball enthusiast and we hope that the management of our local club will make it a point to get up some kind of a game in order to give the Prof. a chance to exercise his voice in the grandstand.

Mr. Woodman Glaspell received a letter last Tuesday from Des Moines, Wash; conveying the sad news of the accidental death of the son of Mr. and Mrs. Len Martin. The little fellow, who is somewhere around ten years old, had been playing on a sand bank and was discovered dead with his neck broken. As near as we can learn he was buried with sand with the exception of his head which would indicate that the bank had caved in on him in some way. The loss of the little boy is a hard blow to the parents and their many friends at Cooperstown deeply sympathize with them in their deep trouble.

Cooperstown is coming to the front right along this summer. New buildings going up all over town, old buildings being fixed up and repainted, new cement walks being laid all over the city, hundreds of trees planted, and say, this man's town is getting there and don't you forget it. Cooperstown has more trees than any town of its size in North Dakota bar none.

Mrs. John Atchison, of Gallatin, died last Friday morning. We have not learned any of the particulars of her sickness only that she suffered a stroke of paralysis some time ago and that a clot of blood formed on the brain which caused her death. Mrs. Atchison, in company with her husband and family, was one of the pioneer settlers of Griggs county, coming here among the first settlers of the county. She leaves a husband and family to mourn her death, who have the sympathy of a large circle of friends. She was 56 years and 12 days old at the time of her death.

There is nothing that catches the people like circus day. It fascinates the old and young and causes the grey haired father to invent a theory that he is all at once interested in natural science. If he isn't close fist he will invite his family to accompany him to the tents causing untold wonder. A father who hasn't a liking to take his family to a circus is a curious sort of a being. There are circuses that the most liberal father would never think of taking his family too, but a wholesome up-to-date circus like Gollmar Bros. where nothing will be said or done to mar the feeling of the most refined, there is no excuse for Pa not to take the family. Remember this when Gollmar Bros. Greatest of American shows arrive here at Cooperstown Wednesday June 14th.
