The new 30-caliber tripod-mounted automatic gun was exhibited recently at the Springfield armory before a board of army officers. The gun weighs 11% pounds, and the tripod (including swivel, base and yoke) weighs 26 pounds. The bullet, powder charge and velocity are U.S.G. standard for the new Springfield rifle. The rate of fire is 750 shots per minute.

While a recent forgery prosecution was in progress in a Washington (state) court the accused calmly reached over, took the forged document from the table and ate it before the astonished court officials recovered sufficiently to interfere. Thereupon the prisoner's counsel promptly moved for his discharge, on the ground that there was no evidence against defense.

Moral suasion once was relied upon to create temperance sentiment. Then came an era of reliance on statute law. Now we are in an era of scientific education in our schools and popular enlightenment through literature. The coming era seems to be one in which commerce and industry will say to those whom they engage, who are the preponderating number of citizens in any community, "Your place in business is dependent on sobriety."

Prof. Joseph Levi, of Milan, Italy, the discoverer of the iodine cure of tuberculosis, in discussing his new method, said: "It is a well-known fact that iodine can immediately convert itself into vaccine and become a virus of the most active and deadly kind. It follows from this that a person affected with tuberculosis becomes capable of making by himself and in himself his own curative serum, ready for healing purposes when this iodine can circulate integrally in the blood. It is precisely this which I have obtained by my new method."

Two venerable American scholars of high distinction are worthy of mention. One of them is Dr. Francis A. March, 80, who in the fall will have rounded out half a century as professor at Lafavette college. He is one of the world's best-known philologists, but a man whose industry has been equaled by his modesty. To have held the lasting affection of a steady stream of college boys for 50 years is a great achievement. Also in the frant rank of American scholarship is Dr. Gildersleeve, professor of Greek at Johns Hopkins university.

The reason the "electric fan cold" is so often accompanied by sore throat is, according to a doctor whose location brings him many such cases, that the draught made by the fan carries so much dust with it. "The fact is," says this authority, "that the air stirred by the fan is not fresh air, unless the fan is backed up against an open window. When operating in an inside room or in similar places, where, it is most appreclated, the fan uses the same air over and over, and this air gathers up and keeps in motion all the available dust.

Union Passenger Station in Louisville Is Burned-Loss Will Exceed \$350,000.

Louisville, Ky., July 18.-The Union passenger station at Tenth and Broadway, was destroyed by fire Monday night, entailing a loss of over \$350,000. The amount of insurance is not known. The fire was discovered about 9:30 o'clock on the top floor of the four-story stone structure, and although every fire engine in the city except the reserves was on the scene in half an hour, the flames gained steadily and two hours after the start the building was eaten to a shell, only the walls being left standing. Fortunately the fire occurred at a time when few trains were scheduled to arrive or depart, and only a small crowd of passengers was in the building. There was no panic and no casualties ensued. Defective insulation on electric wires is thought to have caused the fire.

Aeronaut Operating Flying Machino Loses Control and Falls 3,000 Feet.

San Jose, Cal., July 19.—Daniel Maloney, who had made numerous successful ascensions with Prof. Montgomery's aeroplane, fell 3,000 feet to his death at Santa Clara Tuesday. Maloney made an ascension from the grounds of Santa Clara college in honor of the League of the Cross cadets, who are holding their annual encampment. About 2,000 persons watched with interest the machine as it shot upward from the college garden attached to a huge balloon. At a height of 4,000 feet Maloney cut loose and began maneuvering the aeroplane. He sailed gracefully about, then essayed, a deep dip. Suddenly the machine swerved and then turned completely over. It righted itself, sank down a considerable distance and turned over again. Maloney was clinging desperately to his seat, and evidently endeavoring to regain his control, but all his efforts were in vain.

SPINSTERIAL SAPIENCY.

The man who knows most of women in general knows little of women in par-

ticular. A man may have all the wisdom of ages and its sages and yet be lacking in understanding. No man is as good as a good woman

thinks him. No woman is as bad as a bad man thinks her. In his desire to be fair to one woman a man should not forego the amenities of civilization with another who has never injured him.

A man should provide a good mother for his children if he wishes to elevate the race and himself. Blood tells, but most in the mother line.

A woman may garner up wisdom till she has a basketful, and then put her foot in it and tip it over: but the wisdom is there just the same.

The happy marriage is an anomaly many seek, but few find. Philosophy and forbearance are twin comforters, Only exceptionally weak and excep tionally brave women dare unequal marriages. Unequal marriages include inequalities of birth, age, education, character. Some women are so hurt by a man's suspicions that they cannot be natural.

Feels Trapped. No matter how charming the girl is, a man always feels trapped when people start to discussing his engagement.

A WOMAN'S MISERY.

Mrs. John LaRue, of 115 Paterson Avenue, Paterson, N. J., says: "I was troubled for about nine years, and what I suffered no one will ever know. I used about every known reme dy that is said to be good for kidney com-

nent relief. Often when alone in the house the back ache has been so bad that it brought tears to my eyes. The pain at times was so intense that I was compelled to give up my household duties and lie down. There were headaches, dizziness and blood rushing to my head to cause bleeding at the nose. The first box of Doan's Kidney Pills benefited me so much that I continued the treatment. The stinging pain in the small of my back, the rushes of blood to the head and other symptoms
