## Liquozone Illegal.

The Patent Medicine Which Has Been Advertized as a Cure For All Ills

Is a Dangerous Proposition And Should Be Given a Wide Berth.

I have on previous occasions called attention to the character of the product being sold under the name of Liquozone. In bulletin No. 63 was shown the character of this product and the false statements and claims made by its manufacturers.

The claim that the virtue of this product is due to oxygen is false. Liquozone contains from less than 1 per cent. to more than 2 per cent. as shown by various analysis, of sulphurous and sulphuric acid. I consider the indiscriminate use of this product as dangerous to the health of the community. I therefore give notice that on and after August 1, 1905, any party in North Dakota who sells, offers for sale, or exposes for sale Liquozone will be prosecuted by this department under the laws of this state.

I further warn the public against the use of this dangerous product and as evidence quote the following from the Medical Times and Hospital Gazette of London for July 1, 1905. "Dr. Wynn Wescott, the coroner for the Stoke Newington district, concluded on Monday last his inquiry into the circumstances attending the death of Constance Adelaide Sheppard, age three years and ten months, and Dorothy May Sheppard, aged two, daughters of a tobaccoist's assistant of Stoke Newington. The evidence given at the previous hearings referred to in our issue of the 17th ult., showed that the father obtained a free bottle of Liquozone, and doses of half a teaspoonful were given to the children for several days. Both took ill and died. The jury returned the following verdict. The children died from exhaustion after vomiting and diarrhoea, set up by taking Liquozone. We wish to add our deep sympathy with the parents and also think that some representation should be made to the proper authorities to have some better supervision over these patent medicines." In view of the facts, the jury could not have arrived at any other conclusion than that death was due to the nostrum, and it will be the duty of the government to carry out the suggestion of the jury if the public are to be protected against the recurrence of such fatalities." E. F. Ladd, Food Commissioner.

## JOHN SYVERSON.

erty. It is to be hoped that the new owner will put his mills in good shape and keep them running. Cooperstown has a fine mill and plenty of material can be secured, so that there is no reason why the institution should not be kept running at least the greater part of the year.

#### Peculiar Disappearance.

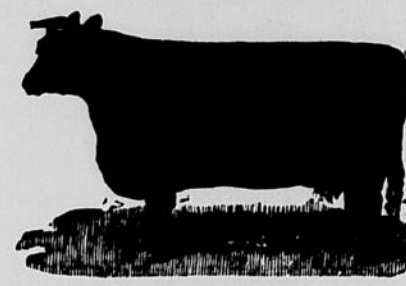

J. D. Runyan, of Butleville, O., laid the peculiar disappearance of his painful symptoms, of indigestion and biliousness, to Dr. King's New Life Pills. He says: "They are a perfect remedy, for dizziness, sour stomach, headache, constipation, etc." Guaranteed at H. H. Bateman's drug store price 25c.

#### Electric Lights Again.

During the closing hours of last winter and the dawn of spring several meetings of the Commercial Club were held to discuss the question of an electric light plant for Cooperstown. Sentiment was divided, some wanting private ownership while others thought the town should own the plant. Finally it was decided to send somebody to visit other towns and find out which was best. Time sped by until finally Mr. A. M. Baldwin went out into the cold, pitiless world, and investigated. Last Thursday night the club again met to hear his report which was mainly in favor of municipal ownership. In the meantime Mr. Charles Cooper, a former citizen of Cooperstown, had made application for a franchise, and this with Mr. Baldwin's report, was discussed pro and con. It was finally voted to recommend to the town board that they grant Mr. Cooper a franchise under proper restrictions. The board has drafted such a franchise and sent it in to Mr. Cooper for his approval. If he is satisfied then the town board will undoubtedly grant the franchise and we hope this will permanently settle a question that has been before the public too long and of which the public is tired. A good plant will pay here there is not the slightest doubt.
