The emigration statistics for Ireland for the year 1904 furnish melancholy reading, in that they show how freland continues to lose some of the best of her population. Last year 36,902 natives of Ireland, a number equivalent to 8.3 per 1,000 of the population, left their homes, the vast majority to go to the United States or Canada. The total of 36,902 is a slight falling off as compared with several recent years, and is, indeed, the smallest aggregate since 1898.

Exercises Held to Commemorate Fiftieth Anniversary of Opening of St. Mary's Ship Canal.

Sault Ste. Marie, Mich., Aug. 3.-With the city crowded with thousands of visitors, and with hundreds of yards of bunting flying in the breeze from all the buildings on both the American and Canadian sides of the St. Mary's river, a salute at sunrise from the government ships in the harbor opened the two days' celebration of the semi-centennial of the opening of the St. Mary's ship canal, which connects Lake Superior with the lower lakes. Fifty years ago the first ship canal around the rapids in the St. Mary's river was completed and opened, with two locks 350 feet in length, and a depth of 13 feet. To-day the American canal has two locks, one 515 feet long, the other 800 feet long and 21 feet deep, while there is also a Canadian lock 1,000 feet in length. More traffic passes through these three locks than through any similar waterway in the world. In 1904, 38,000 passengers were transported through the canal, and a total of 31,546,106 tons of freight with a value of \$340,000,000. The semi-centennial celebration and the erection later of a monument as a permanent memorial was, made possible by the appropriation of \$10,000 by the United States and \$15,000 by the state of Michigan, and the contribution of a considerable amount by the vessel interests of the great lakes.

WILL REORGANIZE BUREAU.

Secretary Wilson Decides to Overhaul Crop Statistics Division of His Department.

Oyster Bay, N. Y., Aug. 1.-Secretary Wilson will reorganize thoroughly the crop statistics bureau of the department of agriculture, according to information here. Already he is seeking men of character, standing and education to conduct the work of the bureau, men in whom the farmers and growers of the country will have implicit conadence and who will place the reports of the bureau on a standard of excellence never heretofore achieved. One man he has found, although he does not at this time wish to publish his name. The other three he hopes to secure in a short time. Two of them will be southern men, and both will be experts in cotton and tobacco statistics. This, in brief, is one of the ideas which Secretary Wilson elucidated to President Roosevelt.

At the conclusion of his conference, Secretary Wilson talked frankly about some phases of the work in his department. He was asked whether there was any likelihood of his early relinquishment of his portfolio as secretary of agriculture, and he declared he had not the slightest intention of resigning.

GENERAL WEAKNESS AND FEVER DIBAPPEAR TOO.

w a Woman Was Freed from Troubles That Had Made Life Wrotched for Many Years.

The immediate causes of headaches vary, but most of them come from poor or poisoned blood. In anzemia the blood is scanty or thin; the nerves are imperfectly nourished and pain is the way in which they express their weakness. In colds the blood absorbs poison from the mucous surfaces, and the poison irritates the nerves and produces pain. In rheumatism, malaria and the grip, the poison in the blood produces like discomfort. In indigestion the gases from the impure matter kept in the system affect the

blood in the same way.

The ordinary headsche-cures at best give only temporary relief. They deaden the pain but do not drive the poison out of the blood. Dr. Williams' Pink Pills on the contrary thoroughly renew the blood and the pain disappears perma-nently. Women in particular have found these pills an unfailing relief in headaches caused by anæmia.

Miss Stella Blocker recently said: "Dr. Williams' Pink Pills did me a great deal of good. I had headache nearly all the time. After I had taken three boxes of these pills I became entirely well."

"How long had you suffered?" she was asked. "For several years. I can't tell the exact date when my illness began for it

came on by slow degrees. I had been going down hill for many years." "Did you have any other ailments?" "I was very weak and sometimes I had fever. My liver and kidneys were af-

fected as well as my head.' "How did you come to take the remedy that cured you?"

"I saw in a southern newspaper a statement of some person who was cured of a like trouble by Dr. Williams' Pink Pills. My physician hadn't done me any good, so I bought a box of these pills. After I had taken one box I felt so much better that I kept on until I became entirely well."
