

FACT AND FANCY.

A project for starting a large public library is on foot in Charleston, S. C. Nevada has 151 postoffices of the fourth class, 9 of the third class, and 1 of the second class. A South Carolina planter raises Sea Island cotton for a French spinner and receives \$1 per pound. The Onedia community New York papers published in the vicinity say has virtually fallen to pieces. A Yonkers bride received, among her wedding gifts, a receipted bill of \$8 for gate hinges from her father. As high as \$80 a head is offered to officers of Victoria and Puget sound steamers to smuggle Chinese across the line. The Philadelphia Times celebrated its tenth anniversary as a newspaper on the 14th inst. by publishing twenty-eight pages. In Death valley, Inyo county, California, week before last the thermometer for several days marked 120 degrees in the shade. "Marriages a specialty, acceptable at all hours; strangers particularly invited," is the unique advertisement of a clergyman at York, Me. Mr. W. H. Harp, of Americus, Ga., uses a coffee mill which has been in constant use in his family for nearly sixty years and is efficient as ever. A flying snake is on exhibition at Virginia City, Nev. The reptile is four feet long and has two wings attached to its body about four inches back of the head. The juice of the curious ink-plant of New Granada requires no preparation before being used for writing. The color is reddish when first applied to the paper, but soon becomes a deep black which is very durable. The story is going the rounds that a Tennessee woman, convicted of stealing a diamond ring, is boarding at a hotel under guard instead of occupying a small apartment in a penitentiary. It is said there is hardly a telegraph operator of any experience who has not had a touch of operator's paralysis, and that many of the mistakes made by operators can be traced to this ailment. A gentleman at Lake Jesup, Fla., while experimenting with an orange tree, placed some fertilizer on one side and none on the other. The side that was fertilized bore large, bright oranges, and the other small, rusty ones. Yale has, in the way of trophies, sixty-nine base-balls, won from her various adversaries. Each ball is painted the color of the stockings of the vanquished nine, and is lettered to indicate the time and place of winning. There are twenty thousand tons of wheat in the various warehouses along Snake river, Washington territory, waiting for the prices to rise. Farmers in that section claim to have about half as much more in their home granaries. An Artistic Humorous Gem. The Baltimore American says: The choicest selection of copyrighted American humor and one which will delight every reader is now being distributed free throughout America. Nearly all the humorists and comic artists of the country are represented in it, among them "Bill Nye," Robert J. Burdette, Burlington Hawkeye; F. H. Gassaway, "Dorrick Doid," San Francisco Post; C. B. Lewis, "M. Quad," Detroit Free Press; Stanley Huntley, "Spoon-nyde"; Opie P. Read, Arkansas Traveler; I. K. Munkittrick of Puck, and others. The book in question is the unique annual literary production of The Charles A. Vogeler Company, of this city, and is styled "The St. Jacobs Oil Family Calendar and Book of Health and Humor for 1885." While it has been gotten up primarily for advertising purposes, it is so replete with original matter free from advertising reference that the business feature is almost a secondary one. Twelve million copies are issued for gratuitous distribution, being delivered from house to house in large cities, and in smaller towns furnished through the medium of druggists. It has been printed in a number of languages and for different countries. The press of Great Britain and Australia is unanimous in praising the merit and originality of its contents. The illustrated sketches are interspersed with testimonials as to the merits of the wonderful pain-cure, St. Jacobs Oil, the only remedy which received gold medals at the World's Fair of Australia, India and other countries. The Red Star Cough Cure, a new discovery in medicine, has also space devoted to it. Boards of Health of large cities, eminent medical authorities, analytical chemists, chief officers of state and municipal governments have all testified not only to the curative effects of this remedy, but also to its freedom from narcotics, opiates and poisons, which enter so largely into the composition of old-time preparations. The former editions of this little book were very attractive, but in the present instance both publishers and contributors seem to have determined that they would give the country all that is brightest and best in American humor.

Trouble is imminent in Panama. Azipura has issued a pronouncement against the marines, and their pickets have been fired upon. One hundred marines have been ordered to reinforce Hayward. Refugees are leaving the city. Azipura has but 100 men. He will probably remain quiet until the arrival of the government troops, which are embarking at Buena Ventura.

The Care of Children. Boston, Mass.—A leading medical journal thinks it is about time mothers should know more seriously the health of children is imperiled by the use of preparations containing morphia and opium, and given for the cure of colds and coughs. The chemist of the Brooklyn Board of Health, Otto Grothe, Ph.D., a graduate of the University of Kiel, Germany, certifies officially that recently a harmless and yet effective article for such complaints has come to his notice. He refers to the newly discovered Red Star Cough Cure, which he found purely vegetable.

The 321st anniversary of the birth of Shakespeare was celebrated with much ceremony in Stratford-on-Avon. The town was brilliantly decorated and the church bells chimed all the day. Hundreds of strangers thronged the place. The vicar of Stratford church in the front of which Shakespeare's dust reposes, announced during the service that the Shakespeare window, presented by American visitors to the poet's tomb, was completed, but not fixed in its place. The window is to be set immediately over Shakespeare's grave. The committee which has the unveiling ceremonies in charge are making efforts to have the dedication address delivered by James Russell Lowell. The decorations represent the seven ages of man, and for the illustrations of Shakespeare's text, describing each, a scriptural subject has been chosen. The window is said by the best critics to be a marvel of art.

Professional Etiquette prevents some doctors from advertising their skill, but we are bound by no such conventional rules, and think that if we make a discovery that is of benefit to our fellows, we ought to spread the fact to the whole land.
