PERRY DAVIS' PAIN KILLER.

WE WOULD CALL THE ATTENTION OF THE PUBLIC TO THIS LONG TESTED AND UNRIVALLED FAMILY MEDICINE.

The Pain Killer is a purely vegetable compound, and while it is the most efficient remedy for Pain, it is perfectly safe in medicine even in the most unskillful hands.

FOR SUMMER COMPLAINT, or any other form of Bowel Disease in Children or Adults it is almost a certain cure, and has without doubt been more successful in curing the various kinds of

CHOLERA than any other known remedy, or even the most skilful physician. In India, Africa, or China, where this dread disease is ever more or less prevalent, the

PAIN-KILLER, is considered by the natives, as well as by European residents, in those climates.

A SURE REMEDY. As a Tonic for the Stomach, it is unrivalled. A few doses will relieve severe cases of

INDIGESTION, and it is often a perfect cure for

DYSPEPSIA in its most aggravated forms. Its tonic and stimulating properties, acting upon the system to vigorous action, render it most effectual cure for

COLDS AND COUGHS, when used according to directions.

For external application it is unsurpassed by any medicinal preparation known.

RHEUMATISM and Neuralgic Affections are quickly relieved and often cured by it. Any soreness in the Muscles or Joints can be relieved by its application. It cures instantly the most violent

TOOTHACHE. It should always be kept near at hand, to be used in cases of severe

BURNS OR SCALDS. Applied immediately, according to directions it will give instant relief, and prevent the possibility of

PASSING EVENTS.

A large acreage of potatoes will be planted this spring by New York farmers.

Chinese failures at Portland, Oregon, of late, have been frequent and settlements small.

Two vessels are on the way from Hong Kong with seven hundred coolies for Victoria, B. C.

Every county in Indiana except two is represented by democratic office-seekers in Washington.

Experiments show that the heating value of wet coal is 25 per cent less than that of which is dry.

It is calculated that the Mazatlan, Mexico, custom-house will this year collect \$3,000,000 in revenue.

Byron's original MS. of his poem, "Fare thee well, and if forever," was lately sold in London for about \$88.

Only three hundred copies of the report of Guiteau's trial were printed by the government, and most of these are in the hands of speculators.

The United States steamer Chicago, the last and largest of the new steel cruisers built at Roach's ship-yard, Chester, will be launched June 22.

Hon. Daniel Agnew, ex-chief justice of the supreme court of Pennsylvania, has been chosen to address the alumni of Western university. He is one of the oldest graduates.

The Yuma Indians, who numbered three thousand fifteen years ago, are now reduced to fifteen hundred. Their chief, Pasqual, is supposed to have long since passed his centennial year.

"Banish the devil of modern arithmetic from our public schools," said Hon. Henry C. Robinson in a speech on public education in Hartford the other day. "It assaults the brain and imperils the life. It develops precocity, and precocity is unnatural, and unnatural is a monster."

The four-story brown stone residence, No. 2,009 Chestnut street, which was presented to Gen. Grant by a committee of Philadelphia citizens immediately after the close of the civil war, will be sold at auction on June 12. The committee paid \$33,000 for the house in 1865, and furnished it.

Parlor-cars are now constructed with bay windows. Some on the line between New York and Baltimore are fitted with a series of five such windows, each about seven feet wide and a trifle higher than usual. They comprise a central light about three feet wide, from which two smaller lights deflect in contrary directions. There is no projection beyond the outer line of the car, the deflection of the wings being inward, and there is no extension beyond the limit of safety.

The late Franz Abt, the song-writer, was a surprising gourmand. A "goose," he used to say, "is a very pretty bird, but it has one great fault; it is a little too much for one and much too little for two." Coming out of a restaurant the other day, looking supremely happy, "Herr Kappelmeister," said a friend to him, "you seem to have dined well." "Yes, I had a fair dinner; it was a turkey." "And was there a good company around the board?" "Yes, good—but small; just two, indeed, the turkey and myself."

An intelligent physician has discovered that color blindness is very rare among girls, though it is common among boys. From this fact he draws the conclusion that in most cases color blindness is due to a want of early education in discriminating between colors. Girls are taught to become familiar with every shade of color, while boys receive no instruction whatever in colors. Hence, boys frequently show an ignorance of colors which is confounded with true color blindness, but which girls rarely show.

The "professional amuser" has become an institution of New York society. At dinners, concerts, club banquets, and parties they are in continual demand, and a popular artist in this line is perpetually on the go. The stupid half hour after the coffee is served, which usually falls on a party of dinners, and which was formerly filled with tedious or tiresome speeches, is now admirably utilized by the professional amuser. He goes in as one of the guests, dines, is professionally jolly for an hour after the dinner is over, pockets a fee of \$50, and disappears.

The story goes that a democratic congressman from Pennsylvania complained because a republican postmaster in his district, whom he accused of being an "offensive partisan," was not turned out. The postmaster had declared publicly that should Cleveland be elected no man of character and no woman of self-respect could enter the white house. He was asked how it was he could consent to hold office under a man whom he despised so much. "I'll tell you," said the postmaster. "If Cleveland hasn't got spunk enough to turn me out I'm just mean enough to hold the office."

The following complaint emanates from *The Boston Journal*: It is a peculiar police regulation which forbids forcible entrance upon unoccupied premises for the purpose of extinguishing fire. In the case of the fire at No. 13 Water street, a day or two ago, the flames were discovered in an incipient stage by *Journal* employees who would have forced an entrance and perhaps have succeeded in extinguishing the fire with hand grenades had they not been prevented by a policeman. The officer would allow no one to touch the door until the fireman arrived five minutes later. At that time the flames were bursting from front and rear and damage to the amount of several thousand dollars was done before they were extinguished.

The Famous Notre Dame.

On the 30th of last January, the Sisters of the most noted Catholic ladies' seminary in the United States, the famous Notre Dame, at Govanstown, near Baltimore, Md., made public a card, certifying to the beneficial results attending the use of Red Star Cough Cure in that institution. They state that they found it efficacious alike for relieving coughs, oppressions on the chest and irritation of the throat. Officials of the boards of health of Brooklyn, Baltimore and other cities have likewise publicly proclaimed the virtues of this new discovery, which is entirely free from opiates, poisons and other objections.

Mr. James Mill, formerly a resident of St. Paul, has retired from the managing editorship of the *Pittsburg Post*, which he has filled for seven years. The *Pittsburg Chronicle-Telegraph* says: "Mr. James Mill carries with him the best wishes of the journalistic profession, as well as of the public. Mr. Mill is one of the oldest newspaper men in the city, and won his way to the position and reputation he has enjoyed by honest, hard work and positive merit. A pungent, forceful writer, he has always been fair to his adversaries, and all will regret his retirement."

At Detroit the house of Judge Henry B. Brown, of the United States court, was burglarized of over \$8,000.

Blowing Up Hell Gate

has been a laborious and costly work, but the end justifies the effort. Obstruction in any important channel means disaster. Obstructions in the organs of the human body bring inevitable disease. They must be cleared away, or physical wreck will follow. Keep the liver in order, and the pure blood courses through the body, conveying health, strength and life; let it become disordered and the channels are clogged with impurities, which result in disease and death. No other medicine equals Dr. Pierce's "Golden Medical Discovery" for acting upon the liver and purifying the blood.

Frost destroyed green things in some localities recently.

"The Proper Study of Mankind is Man,"

says the illustrious Pope. If he had included women in the list, he would have been nearer the truth, if not so poetical. Dr. R. V. Pierce has made them both a life study, especially women, and the peculiar derangements to which her delicate system is liable. Many women in the land who are acquainted with Dr. Pierce only through his "Favorite Prescription," bless him with all their hearts, for he has brought them the panacea for all those chronic ailments peculiar to their sex; such as leucorrhoea, prolapsus and other displacements, ulceration, "internal fever," bloating, tendency to internal cancer, and other ailments. Price reduced to one dollar. By druggists.

Sick headache? Piles, constipation, bilious headache and dyspepsia, are all speedily cured by Hunt's (Kidney and Liver) Remedy.

A Warning to Farmers.

Every farmer living at any distance from a physician should at all times be prepared to treat such common but by no means simple complaints as diarrhoea, dysentery, cholera morbus, and cramps. The safest, surest, and quickest remedy for such disorders is *Perry Davis' Pain Killer*, which has never failed to afford relief in cases of the kind mentioned when properly tried. A teaspoonful is a dose for adults, but twenty drops will cure a child of any ordinary trouble of this kind. The medicine can be found in every respectable drug store.
