

Plague-Stricken Plymouth!

Does a Similar Danger Threaten Everyone of Us?

How Public Attention is Directed to Personal Perils.

Rochester (N. Y.) Correspondence Indianapolis Sentinel.

"Judge," said a young lawyer to a very successful senior, "tell me the secret of your uniform success at the bar."

"Ah, young man, that secret is a life study, but I will give it to you on condition that you pay all my bills during this session of court."

"Agreed, sir," said the junior. "Evidence, indisputable evidence."

At the end of the month the judge reminded the young man of his promise.

"I recall no such promise."

"Ah, but you made it."

"Your evidence, please?"

And the judge, not having any witnesses, lost a case for once!

The man who can produce indisputable evidence wins public favor. I had an interview yesterday with the most successful of American advertisers, whose advertising is most successful because always backed by evidence.

"What styles of advertising do you use?" I asked H. H. Warner, Esq.

"Display, reading matter and paragraphs of testimonials."

"Have you many testimonials?"

In answer he showed me a large cabinet chock-full. "We have enough to fill Boston, New York, Chicago, St. Louis and Philadelphia morning papers."

"Do you publish many of them?"

"Not a title. Wonderful as are those we do publish, we have thousands like them which we cannot use. Why not?" Let me tell you. "Warner's safe cure" has probably been the most successful medicine for female disorders ever discovered. We have testimonials from ladies of the highest rank, but it would be indelicate to publish them. Likewise many statesmen, lawyers, clergymen, doctors of world wide fame have been cured, but we can only refer to such persons in the most guarded terms, as we do in our reading articles.

"Are these reading articles successful?"

"When read they make such an impression that when the 'evil days' of ill health draw nigh they are remembered, and Warner's safe cure is used."

"No, sir, it is not necessary now, as at first, to do such constant and extensive advertising. A meritorious medicine sells itself after its merits are known. We present just evidence enough to disarm skeptics and to impress the merits of the remedies upon new consumers. We feel it to be our duty to do this. Hence, best to accomplish our mission of healing the sick, we have to use the reading-article style. People won't read plain testimonials."

"Yes, sir, thousands admit that had they not learned of Warner's safe cure through this clever style they would still be ailing and still impoverishing themselves in fees to unsuccessful 'practitioners.' It would do your soul good to read the letters of thanksgiving we get from mothers grateful for the perfect success which attends Warner's safe cure when used for children, and the surprised gratifications with which men and women of older years and impaired vigor, testify to the youthful feelings restored to them by the same means."

"Are these good effects permanent?"

"Of all the cases of kidney, liver, urinary and female diseases we have cured, not two per cent. report a return of their disorders. Who else can show such a record?"

"What is the secret of Warner's safe cure permanently reaching so many serious disorders?"

"I will explain by an illustration: The little town of Plymouth, Pa., has been plague-stricken for several months because its water supply was carelessly poisoned. The kidneys and liver are the sources of physical well-being. If polluted by disease, all the blood becomes poisoned and every organ is affected and this great danger threatens every one, who neglects to treat himself promptly. I was nearly dead myself of extreme kidney disease, but what is now Warner's safe cure cured me, and I know it is the only remedy in the world that can cure such disorders, for I tried everything else in vain. Cured by it myself, I bought it and, from a sense of duty, presented it to the world. Only by restoring the kidneys and liver can disease leave the blood and the system."

A celebrated sanitarian physician once said to me. "The secret of the wonderful success of Warner's safe cure is that it is sovereign over all kidney, liver and urinary diseases, which primarily or secondarily make up the majority of human ailments. Like all great discoveries it is remarkably simple."

The house of H. H. Warner & Co. stands deservedly high in Rochester, and it is certainly matter of congratulation that merit has been recognized all over the world, and that this success has been unqualifiedly deserved.

PEN POINT.

Women are now admitted to 120 of the colleges in the United States, and that is the reason Vassar college has of late years suffered somewhat financially. It used to have almost a monopoly of the women students.

Nearly Lost Saturday.

From the Aurora Blade.

Saturday Ham Cherry arose in the morning, took a bath, put on his black suit, and after breakfast occupied himself reading sacred books. He told his folks that as it was so far to church, and as the off horse had galled his shoulder ploughing, he guessed he would not drive thither. Everything was quiet and peaceable about, and Ham was glad there was a day left for man to rest and recuperate. But just after dinner a neighbor came along with a load of hay. Ham stepped to the door and called out:

"How is this, John, that you are working to-day? You should go to meeting."

"Ham't got no time to go to meeting on week days," answered John. "Sunday is all the time I can spare for church going."

The man drove on. Cherry stood and scratched his head meditatively a few moments and then entered the house. He told his wife to take a pencil and check off the days.

"Less see—Monday I went to town. Got that down?"

"Yes."

"Tuesday I broke the colt. Wednesday I put up that fence down in the lower field. Thursday I killed the pig. Friday I licked the tramps. Saturday a-y. Confound it, what did I do Saturday?" In just ten minutes after the conversation Ham Cherry was holding up the whittletree with one hand and driving his team down the lane toward the field on a sharp trot.

WASHINGTON, D. C.—The son of Senator Frye, of Maine, who has been suffering from a severe cold, which settled on his chest, was cured by a few doses of Red Star Cough Cure. He publicly endorses it as prompt, pleasant and safe. Dr. Cox calls it the best remedy. It contains no opiates or poisons.

A Noted Police Officer.

New York Letter: The redoubtable Capt. Williams is a candidate for the Inspectorship made vacant by the promotion of Murray. The commissioners might do worse than give it to him. Though Williams has received more abuse in his time than any other man ever got in New York for police work he is really one of the best officers the city ever had. Charges have been made against him over and over, but none have ever been proved, and he stands higher to-day than ever before. The special characteristic of Williams is to take hold of a thing with all his might and do it at once. There is no stopping to think about it. When there is rough work to do he is as ready with his fists as with his club. He knows the manly art as well as any trained pugilist, and a blow from him is as sure to tell as if it came from the big Boston bruiser himself. Williams cleared the whole tribe of bunco thieves out of his precinct without ever using a club. He preferred to grab a couple of them, one with each hand, knock their heads together like two coconuts, then give each a kick and tell them if he ever caught them in his bailwick again he would break their necks. A few nights ago Manager McCull sent for a policeman to drive off a lot of ticket speculators who had taken possession of the sidewalk in front of his theater. Williams responded in person instead of sending a man. He ordered the speculators to clear out, and as they were in no hurry about it he grabbed a couple of them at a rush, flung them sprawling into the street and scared the others off on a dead run.

By the will of the late Henry Singmaster of Stroudsburg, Pa., who died recently at an advanced age, his estate, which is estimated at between \$100,000 and \$200,000, is to be sold after the death of his wife and divided into two equal shares. One share goes to the Lutheran Theological Seminary of Philadelphia, and the other to the Lutheran Theological Seminary at Gettysburg.

The Record of the Fairs.

The superiority of Wells, Richardson & Co.'s Improved Butter Color over all others made is again demonstrated by its record at the Autumnal Fairs. The test of practical use is what tells the story, and the great value of the premiums given by the Agricultural Fairs, lies in the fact, that the judges in these cases are regular farmers who know what their needs are and what will supply them. Wells, Richardson & Co.'s Improved Butter Color, which has taken first premium at all fairs where exhibited, is put up in a vegetable oil so prepared that it cannot become rancid, a most important property, the lack of which is fatal to so many of the Butter-Colors offered for sale. It does not color the butter-milk; it imparts a bright natural color, which is unattained by any other; and being the strongest is the cheapest Color in the market.

In the Country all Summer.

The man who takes his family into the country for the summer should remember that he will save his children a great deal of pain and himself a large amount of money in doctors' bills, if he is thoughtful enough to carry a supply of PERRY DAVIS' PAIN KILLER. The medicine is a standard specific for all cases of cramps, cholera morbus, diarrhoea, or dysentery.
