-LOCALS .-

The steady advance in the price of wheat keeps everyone in high spirits.

Reports reach us every day of somebody being burned out by prairie fires.

O. H. Nelson, of Nelson Bros., came in from Fargo last week, looking after the interests of the firm here, also giving L. E. Nelson an opportunity of running down to Fargo for a few days.

J. W. Wilsie's Three Rivers outfit is threshing in the neighborhood, and making an average of 1,200 bushels per day, since starting.

The new Huber separator received by Nelson Bros. the other week, has proved useless, they being obliged to send for another before proceeding with threshing, which arrived last week.

The village has at last succeeded in getting some fire breaking done for the protection of property. W. J. Wheeler is doing the work.

A few of our Nimrods loaded themselves down with guns, shells, etc., Sunday, and went forth for ducks,-with what success we cannot learn deflinitely. But we do learn that the price of shells has advanced since.

Manager Larson informs us that on Tuesday rejected wheat was worth more than No. 1 hard was on the same day last year. So much for holding wheat

The efforts made by the few Odd Fellows and citizens, in organizing a lodge here, promises to be a success. Another meeting was held, when a sufficient number of names was enrolled and ample funds deposited for a charter. Another meeting is called for the 26th, after which an application will be made to the grand lodge.

It is rumored that the Nelson Bros.'s large farm, of nearly 7,000 acres, will be cut up into 160 acre farms the coming season, either for sale or rent. Should the rumor prove true, it will be a grand opportunity for the newcomer to procure a home. When we stop and think that territory enough for forty families is being operated by one person, we have no use for bonanza farms. May the rumor be with good foundation.
