

Fashion Spray.

Jet epaulettes and fringes are much used on plush mantles.

Short visits mantles will be much worn during the early Spring.

A daisy in silver or gold, set with diamonds on its petals and centre, is in great favor.

At a recent wedding the orange blossoms for the bride came from the South of France.

White, cream and eoru muslin robes make up well with coarse washing laces for the seaside.

Combination costumes are not so much worn as usual. Silk is made up by itself and wooleps also.

Composite lawns, is a new English Summer material, in broken checks with contrasting colors introduced.

Thin silks mixed with tulle and lisse for evening wear are very popular additions to a Summer wardrobe.

"Roman satin" is much used for bridesmaid's dresses. It is very plainly made into wide pleats and full draperies.

A useful traveling ulster is arranged with Norfolk plaits back and front, and secured round the waist with belt and buckle.

The "Maid Marion" is a charmingly simple and dainty dress for a girl. It is made with shirred yoke and full shirred sleeves.

In skirts long draperies will be used as much as ever, although the killed skirt, with short sash overskirt, still continues in favor.

Broad box pleats are much in vogue on tailor-made dresses. They sometimes are joined by an interlacing cord that goes almost to the foot of the skirt.

A Devout Man's Wise Answer.

A lady once asked Mr. Wesley, "Supposing that you knew that you were to die at 12 o'clock tomorrow night, how would you spend the intervening time?" "How, madame?" he replied. "Why, just as I intend to spend it now. I should preach this evening at Gloucester and again at 5 tomorrow morning; after that I should ride to Tewksbury, preach in the afternoon, and meet the societies in the evening. I should then repair to friend Martin's house, who expects to entertain me, converse and pray with the family as usual, retire to my room at 10 o'clock, commend myself to my Heavenly Father, lie down to rest, and wake up in glory."—Homiletic Review.

December, 1880, wrote O. L. Hathaway, Fall River, Mass., "Was greatly afflicted with rheumatism; tried St. Jacobs Oil; all pain left me." October 19, 1886, he writes: "Have not been troubled with rheumatism since."

He Had No Color Prejudice.

It was in a border city of strong Southern inherited tendencies. Several colored dignitaries appeared before the School Board in aid of a petition to have colored teachers appointed over colored schools. Chairman of the committee says to the leader: "It might do very well in theory, but there would be trouble in practice, for you see we should not want to dismiss all the white teachers in a building, and if we did not there would be some white and some colored, which would make trouble." To which the colored clergyman replied: "I think not. I used to teach in a university with several white folks and I never took offense at it." Silence reigned.—Boston Journal of Education.

"Fire Proof Paper May be Made,"

says a scientific exchange, "from a pulp, consisting of one part vegetable fibre, two parts asbestos, one-tenth part borax, and one-fifth part alum." It is a pity that such facts as the one following cannot be written, printed or otherwise preserved, upon some sort of indestructible paper. "My wife suffered seven years and was bed-ridden, too," said W. E. Huestis, of Emporia, Kansas, "a number of physicians failed to help her. Dr. Pierce's Golden Medical Discovery cured her." All druggists sell this remedy. Everybody ought to keep it. It only needs a trial.

That only can with propriety be styled refinement which, by strengthening the intellect, purifies the manners.

When Baby was sick, we gave her Castoria,
When she was a Child, she cried for Castoria,
When she became Miss, she clung to Castoria,
When she had Children, she gave them Castoria.

The man who commits suicide by hanging dies of his own free will and a cord.

What a Change!

A few short weeks ago that young girl was the personification of health vigor and beauty. The blush upon her cheeks rivalled that of the rose; her step was light and buoyant, her every movement was a revelation of perfect physical health. Yet now she is pallid and haggard, and her superabundant vitality has given place to a strange dullness and lassitude. What has caused this change? Functional irregularities, which can be cured by Dr. Pierce's "Favorite Prescription," a remedy to which thousands of women to-day owe their lives. All druggists.

A brassy proceeding—eating in a restaurant whose forks need replating.

For Good Purposes.

Mrs. M. A. Dauphin, of Philadelphia, is well known to the ladies of that city from the great good she has done by means of Lydia E. Pinkham's Vegetable Compound. She writes Mrs. Pinkham of a recent interesting case. "A young married lady came to me suffering with a severe case of Prolapsus and Ulceration. She commenced taking the Compound and in two months was FULLY RESTORED. In proof of this she soon found herself in an interesting condition. Influenced by foolish friends she attempted to evade the responsibilities of maturity. After ten or twelve days she came to me again and she was indeed in a most alarming state and suffered terribly. I gave her a table-spoonful of the Compound every hour for eight hours until she fell asleep, she awoke much relieved and evidently better. She continued taking the Compound, and in due season she became the mother of a fine healthy boy. But for the timely use of the medicine she believes her life would have been lost." Your Druggist has the Compound, \$1 per bottle.

A Proclamation!

Dr. J. Guy Lewis, Fulton, Ark., says:—"A year ago I had bilious fever; Tutt's Pills were so highly recommended that I used them. Never did medicine have a happier effect. After a practice of a quarter of a century, I proclaim them the best."

ANTI-BILIOUS medicine ever used. I always prescribe them."

Tutt's Pills Cure All Bilious Diseases.

READ THE FOLLOWING LETTER From a well-known gentleman of Lockport and ex-president of the New York State Pharmaceutical Association:

Lockport, N. Y., April 16, 1886.

Pardee Medicine Co.,

GENTS:—In reply to your communication of April 15th, I take pleasure in stating that for years physicians and druggists have been trying to secure a remedy for those obstinate and painful complaints such as neuralgia, rheumatism and nervous headaches, to which every one is liable who lives in this climate, and, until quite recently the efforts of both chemist and doctor have been unsuccessful, but I am pleased at last that such a remedy is found in the compound of Dr. Pardee's Rheumatic Remedy. I recommend it to all who are suffering with rheumatism. I have yet to hear of the first case of rheumatism which it has not greatly relieved, and where the remedy has been used as directed, nearly every case has been permanently cured.

Respectfully yours,
F. K. SWEET.

Syracuse, N. Y.

DEAR SIR:—I have been troubled with Rheumatism for the last five years, and until I heard of Dr. Pardee's Remedy I had no rest. After hearing of it, I procured some of my druggist, and am now entirely free from the disease.

Respectfully yours,
MRS. ETTA HALE, 36 Baker Street.

Jordan, N. Y.

GENTS:—For a year past I have been badly afflicted with rheumatism, at times very bad, and for a month before I commenced using your remedy, could hardly sleep nights. One bottle of Dr. Pardee's Rheumatic Remedy relieved me of the pain, and I now sleep as well as ever, and feel like recommending it to all who are thus afflicted. Yours truly,

MRS. ANN DARLING.

Ask your druggist for Dr. Pardee's Remedy and take no other. Price, \$1 per bottle, six bottles \$5.
Pardee Medicine Co., Rochester, N. Y.

PISO'S CURE FOR

CURES WHERE ALL ELSE FAILS.

Best Cough Syrup. Taste good. Use in time. Sold by druggists.

CONSUMPTION

FOR HORSES.

UVILLA, W. Va., }
Nov. 17, 1886. }

Recently I bought a young horse. He was taken very ill with Pneumonia. I tried to think of something to relieve him. Concluded what was good for man would be good for the horse. So I got a bottle of Piso's Cure and gave him half of it through the nostrils. This helped him, and I continued giving same doses night and morning until I had used two bottles. The horse has become perfectly sound. I can recommend Piso's Cure for the horse as well as for man.

DR. J. P. BARNUM, the well-known Louisville druggist, will send free of charge on request for it, a circular containing a most valuable list of superior toilet articles and medicinal remedies of real value. Dr. Barnum is Professor of Chemistry in Louisville School of Pharmacy, and Chemist for L. and W. R. Co., and American Plate Glass Co. He makes a specialty of all kinds of chemical examinations, and refers to Courier-Journal Co., or any bank in Louisville. Address, J. P. BARNUM & CO., Louisville, Ky.

INVALIDS' HOTEL AND SURGICAL INSTITUTE

No. 663 Main Street, BUFFALO, N. Y.

Not a Hospital, but a pleasant Remedial Home, organized with A FULL STAFF OF EIGHTEEN PHYSICIANS AND SURGEONS.

And exclusively devoted to the treatment of all Chronic Diseases.

This imposing Establishment was designed and erected to accommodate the large number of invalids who visit Buffalo from every State and Territory, as well as from many foreign lands, that they may avail themselves of the professional services of the Staff of skilled specialists in medicine and surgery that compose the Faculty of this widely-celebrated institution.

NOT ALWAYS NECESSARY TO SEE PATIENTS.

By our original system of diagnosis, we can treat many chronic diseases just as successfully without as with a personal consultation. While we are always glad to see our patients, and become acquainted with them, at our institutions, and familiarize them with our system of treatment, yet we have not seen one person in five hundred whom we have cured. The perfect accuracy with which scientists are enabled to deduce the most minute particulars in their several departments, appears almost miraculous, in the light of the early ages. Take, for example, the electro-magnetic telegraph, the greatest invention of the age. Is it not a marvelous degree of accuracy which enables an operator to exactly locate a fracture in a submarine cable nearly three thousand miles long? Our venerable "clerk of the weather" has become so thoroughly familiar with the most wayward elements of nature that he can accurately predict their movements. He can sit in Washington and foretell what the weather will be in Florida or New York as well as if several hundred miles did not intervene between him and the places named. And so in all departments of modern science, what is required is the knowledge of certain signs. From these scientists deduce accurate conclusions regardless of distance. So, also, in medicine, science, and treatment is employed directed to the removal of a disease which does not exist. Our Complete Treatise on Diseases of the Digestive Organs will be sent to any address on receipt of ten cents in postage stamps.

SIGNS OF DISEASE.

the nature of chronic diseases, without seeing and personally

examining our patients. In recognizing diseases without a personal examination of the patient, we claim to possess no miraculous powers. We obtain our knowledge of the patient's disease by the practical application, to the practice of medicine, of well-established principles of modern science. And it is to the accuracy with which this system has endowed us that we owe our almost world-wide reputation of skillfully treating lingering or chronic affections. This system of practice, and the marvelous success which has been attained through it, demonstrate the fact that diseases display certain phenomena, which, being subjected to scientific analysis, furnish abundant and unmistakable data, to guide the judgment of the skillful practitioner right in determining the nature of diseased conditions. The most ample resources for treating lingering or chronic diseases, and the greatest skill, are thus placed within the easy reach of every invalid, however distant he or she may reside from the physicians making the treatment of such affections a specialty. Full particulars of our original, scientific system of examining and treating patients at a distance are contained in "The People's Common Sense Medical Adviser," by R. V. Pierce, M. D., 1000 pages and over 200 colored and other illustrations. Sent, post-paid, for \$1.00. Or write and describe your symptoms, enclosing ten cents in stamps, and a complete treatise on your particular disease, will be sent you, with our terms for treatment and all particulars.

MARVELOUS SUCCESS.

examining our patients. In recognizing diseases without a personal examination of the patient, we claim to possess no miraculous powers. We obtain our knowledge of the patient's disease by the practical application, to the practice of medicine, of well-established principles of modern science. And it is to the accuracy with which this system has endowed us that we owe our almost world-wide reputation of skillfully treating lingering or chronic affections. This system of practice, and the marvelous success which has been attained through it, demonstrate the fact that diseases display certain phenomena, which, being subjected to scientific analysis, furnish abundant and unmistakable data, to guide the judgment of the skillful practitioner right in determining the nature of diseased conditions. The most ample resources for treating lingering or chronic diseases, and the greatest skill, are thus placed within the easy reach of every invalid, however distant he or she may reside from the physicians making the treatment of such affections a specialty. Or write and describe your symptoms, enclosing ten cents in stamps, and a complete treatise on your particular disease, will be sent you, with our terms for treatment and all particulars.

OUR FIELD OF SUCCESS.

NASAL, THROAT AND LUNG DISEASES.

The treatment of Diseases of the Air Passages and Lungs, such as Chronic Nasal Catarrh, Laryngitis, Bronchitis, Asthma, and Consumption, both through correspondence and at our institutions, constitutes an important specialty. We publish three separate books on Nasal, Throat and Lung Diseases, which give much valuable information, viz: (1) A Treatise on Consumption, Laryngitis and Bronchitis; price, post-paid, ten cents. (2) Treatise on Asthma, or Phthisis, giving new and successful treatment; price, post-paid, ten cents. (3) A Treatise on Chronic Nasal Catarrh; price, post-paid, two cents.

DISEASES OF DIGESTION.

Dyspepsia, "Liver Complaint," Obstinate Constipation, Chronic Diarrhea, Tape-worms, and kindred affections are among those chronic diseases in the successful treatment of which our specialists have attained great success. Many of the diseases affecting the liver and other organs contributing in their functions to the process of digestion, are very obscure, and are not infrequently mistaken by both laymen and physicians for other maladies, and treatment is employed directed to the removal of a disease which does not exist. Our Complete Treatise on Diseases of the Digestive Organs will be sent to any address on receipt of ten cents in postage stamps.

KIDNEY DISEASES.

BRIGHT'S DISEASE, DIABETES, and kindred maladies, have been very largely treated, and cured, at our institutions, and of cases which had been pronounced beyond hope. These diseases are readily diagnosed, or determined, by chemical analysis of the urine, without a personal examination of patients, who can, therefore, generally be successfully treated at their homes. The scientific practice of chemical analysis and microscopical examination of the urine in our consideration of cases, with reference to correct diagnosis, in which our institution long ago became famous, has naturally led to a very extensive practice in diseases of the urinary organs. Probably no other institution in the world has been so largely patronized by sufferers from this class of maladies as the old and world-famed World's Dispensary and Invalids' Hotel. Our specialists have acquired, through a vast and varied experience, great expertise in the exact nature of each case, and, hence, have been successful in nicely adapting their remedies for the cure of each individual case.

CAUTION.

These delicate diseases should be carefully treated by a specialist thoroughly familiar with them, and who is competent to ascertain the exact condition and stage of advancement which the disease has reached, and to determine, by a careful chemical and microscopical examination of the urine, for medicines which are curative in one stage or condition are known to do positive injury in others. We have never, therefore, attempted to put up anything for general sale through druggists, recommending to the use of these organs, although possessing very superior remedies, knowing full well from an extensive experience that the only safe and successful course is to carefully determine the disease and its progress in each case by a chemical and microscopical examination of the urine, and then adapt our medicines to the exact stage of the disease and condition of our patient.

WONDERFUL SUCCESS.

To this wise course of action we attribute the marvelous success attained by our specialists in that important and extensive Department of our institutions devoted exclusively to the treatment of diseases of the kidneys and bladder. The treatment of diseases of the urinary organs having constituted a leading branch of our practice at the Invalids' Hotel and Surgical Institute, and, being in constant receipt of numerous inquiries for a complete work on the nature and curability of these maladies, written in a style to be easily understood, we have published a large Illustrated Treatise on these diseases, which will be sent to any address on receipt of ten cents in postage stamps.

BLADDER DISEASES.

INFLAMMATION OF THE BLADDER, STONE IN THE BLADDER, Gravel, Enlarged Prostate Gland, Retention of Urine, and kindred affections, have been successfully treated by our specialists who have achieved extraordinary success. These are fully treated of in our illustrated pamphlet on Urinary Diseases. Sent by mail for ten cents in stamps.

STRICTURE.

STRICTURES AND URINARY FISTULE.—Hundreds of cases of the worst form of strictures, many of them greatly aggravated by the careless use of instruments in the hands of inexperienced physicians and surgeons, causing false passages, urinary fistulae, and other complications, annually consult us for relief and cure. That no case of this class is too difficult for the skill of our specialists is proved by cures reported in our illustrated Treatise on these maladies, to which we refer with confidence to this class of cases to physicians of small experience is a dangerous proceeding. Many a man has been ruined for life by so doing, while thousands annually lose their lives through unskillful treatment. Send particulars of your case and ten cents in stamps for a large, illustrated treatise containing many testimonials.

NERVOUS DISEASES.

Epileptic Convulsions, or Fits, Paralysis, or Palsy, Locomotor Ataxia, St. Vitus's Dance, Insomnia, or inability to sleep, and threatened insanity, Nervous Debility, arising from overstudy, excesses, and other causes, and every variety of nervous affection, are treated by our specialists for these diseases with unusual success. See numerous cases reported in our different illustrated

pamphlets on nervous diseases, any one of which will be sent for ten cents in postage stamps, when request for them is accompanied with a statement of a case for consultation, so that we may know which one of our Treatises to send.

DISEASES OF WOMEN.

We have a special Department, thoroughly organized and exclusively devoted to the treatment of Diseases of Women. Every case consulting our specialists, whether by letter or in person, is given the most careful and considerate attention. Important cases (and we get few which have not already baffled the skill of all the home physicians) has the benefit of a full Council of skilled specialists. Rooms for ladies in the Invalids' Hotel are very private. Send ten cents in stamps for our large Complete Treatise on Diseases of Women, illustrated with numerous wood-cuts and colored plates (160 pages).

RADICAL CURE OF RUPTURE.

HERNIA (Breach), or RUPTURE, no matter of how long standing, or of what size, is promptly and permanently cured by our specialists, without the knife and without dependence upon trusses. Abundant references. Send ten cents for Illustrated Treatise.

DELICATE DISEASES.

Organic weakness, nervous debility, premature decline of the manly powers, involuntary vital losses, impaired memory, mental anxiety, absence of vitality, melancholy, weak back, and kindred affections, are speedily, thoroughly and permanently cured.

WE OFFER NO APOLOGY.

To those acquainted with our institutions, it is hardly necessary to say that the Invalids' Hotel and Surgical Institute, which the branch establishment located at No. 8 New Oxford Street, London, England, have, for many years, enjoyed the distinction of being the most largely patronized and widely celebrated institutions in the world for the treatment and cure of those affections which arise from youthful indiscretions and pernicious, solitary practices.

We, many years ago, established a special Department for the treatment of these diseases, under the management of some of the most skillful physicians and surgeons on our Staff, in order that all who apply to us might receive all the advantages of a full Council of the most experienced specialists.

CURED AT HOME.

Most of these cases can be treated by us when cured at home, at a distance just as well as if they were here in person. Our Complete and Illustrated Treatise (168 pages) on these subjects is sent to any address on receipt of ten cents in stamps.

SURGICAL PRACTICE.

Hundreds of the most difficult operations known to modern surgery are annually performed in the most skillful manner by our Surgeon-specialists. Large Stones are safely removed from the Bladder, by crushing, washing and pumping them out, thus avoiding the great danger of cutting.

ALL CHRONIC DISEASES A SPECIALTY.

Our specialists, remove cataract from the eye, thereby curing blindness. They also straighten cross-eyes and insert artificial ones when needed. Many Ovarian and also Fibroid Tumors of the Uterus are arrested in growth and cured by electrolysis, coupled with other means of our invention, whereby the great danger of cutting operations in these cases is avoided. Especially has the success of our improved operations for Varicocele, Hydrocele, Fistula, Ruptured Cervix Uteri, and for Ruptured Perineum, been alike gratifying both to ourselves and our patients. Not less so have been the results of numerous operations for Stricture of the Cervical Canal, a condition in the female generally resulting in Barrenness, or Sterility, and the cure of which, by a safe and painless operation, removes this commonest impediment to the bearing of offspring.

A Complete Treatise on any one of the above maladies will be sent on receipt of ten cents in stamps.

Although we have in the preceding paragraphs, made mention of some of the special ailments to which particular attention is given by the specialists at the Invalids' Hotel and Surgical Institute, yet the institution abounds in skill, facilities, and apparatus for the successful treatment of every form of chronic ailment, whether requiring its cure medical or surgical means.

All letters of inquiry, or of consultation, should be addressed to
