**Mortgage Sale.**  
Default has been made in the conditions of a  
certain mortgage executed and delivered by Lewis  
J. Margach, mortgagor, to Edward C. Dean, mort-  
gagee, dated the first day of September, A. D.  
eighteen hundred and eighty-three, and recorded  
as a mortgage in the office of the register of deeds,  
of the county of Griggs, in the territory of Dako-  
ta, on the ninth day of October, A. D. 1883, at 8  
o'clock p. m., in book 27 of mortgages, on page  
17, on which there is claimed to be due, at the  
date of this notice, the sum of four hundred and  
forty-three dollars, and no action or proceed-  
ing has been instituted at law or in equity to re-  
cover the debt secured by said mortgage or any  
part thereof.

Notice is hereby given, that by virtue of a pow-  
er of sale contained in said mortgage, and of the  
statute in such cases made and provided, the  
said mortgage will be foreclosed by a sale of the  
mortgaged premises therein described, which sale  
will be made at the front door of the court house,  
in the village of Cooperstown, in the county of  
Griggs and territory of Dakota, at public auction,  
by the sheriff of said county, on Tuesday, the 12th  
day of July, A. D. eighteen hundred and eighty-  
seven, at two o'clock in the afternoon, to satisfy  
the amount which shall then be due on said mort-  
gage, with the interest thereon, and costs and  
expenses of said fifty dollars attorney's fees, as  
stipulated in said mortgage in case of foreclosure.  
The premises described in said mortgage, and  
so to be sold, are the lot, piece or parcel of land  
situated in the county of Griggs and territory of  
Dakota, and known and described as follows, to-  
wit:

The northeast quarter (no 1) of section num-  
bered fifteen (15), in township numbered one  
hundred and forty-four (144), north of range num-  
bered sixty (60) west, containing one hundred and  
sixty (160) acres, more or less according to the  
government survey thereof.

Dated at Fargo, Dakota Territory, this 21st day  
of May, 1887.

with main line trains cheerfully given.

**BUSINESS MEN.**

To the Editor of the Courier:  
We neglected to make mention of some of the  
business in Dazey in last week's notes, so we will  
try and complete the list this week:

S. A. Fancher, jeweler and artist, keeps in stock  
such jewelry as is adapted to this locality, and  
with his camera obscures is prepared to give you  
a correct likeness of your photo.

Mr. F. L. Ose is building a large stable on  
Cooper street, and after completion will open a  
livery, feed and sale stable.

Another of our townsmen, who at one time held  
a dim light, has let his light go out and is now  
groping in darkness; kicking at, he knows not  
what, making life hideous to himself and com-  
panions.

It is remarkable what a heap of conceit can be  
boxed up in such a small space, that a man of  
barely 100 pounds avoirdupois. Could ask a com-  
munity to believe that he knows more than they  
all combined is ridiculous in the extreme, and to  
say that the inhabitants of Dakota are d—d  
fools, etc., not knowing enough to make smear-  
case," is almost unbearable. Why does he stay  
among such people? Why don't he get up and  
leave? If the people and country don't suit him  
he should pull out for some other clime. The  
world is broad; we need not be confined to a few  
miles, for thousands of miles are open on either  
side. If the subject we refer to has not sufficient  
money to take him away, we can raise enough in  
a few moments, by subscription, to take him out of  
Dazey. My dear sir, we have no use for a man of  
your description; you are keeping good men out,  
who would come and make good citizens. Now  
if you are so far seeing and wise, infer from the  
reading of this short chapter who we mean, and if  
it is not clear to your understanding, call and see  
the correspondent.

One more thing we wish to mention in the way  
of business: Our merchants depend entirely upon  
a few customers to carry their business notices  
through the country. If they would advertise in  
some of our local papers, many who now go to  
Valley City, Sanborn, Cooperstown and James-  
town to trade, would come and give Dazey a trial.

Next week we expect to give some views on tem-  
perance.

**LOCAL ITEMS.**

Wheat 60 cents.  
Monday it was 105 in the shade.

Mrs. Joseph Flagler is the guest of Mrs. W. L.  
Pattison.

W. D. Johns, of Corrine, was in town, Wednes-  
day.

J. H. Wagh, Supt. of the Penn. Cattle Co.,  
visited Dazey, Tuesday.

Nick Flagler is visiting the country—ascertain-  
ing. R. Clendening spent Sunday in Jamestown.

W. L. Pattison drove to Valley City, Monday.

Section foreman Lent is busy putting in sec-  
tions on the branch.

Mrs. Harriet Nelson has gone to Dewitt, Ne-  
braska, for the summer.

Station Agent Welland has been furnished with  
a supply of coupon tickets to the coast.

Col. Baker will be the guest of his friend Mr.  
Wicker, on the Shyenne, for two weeks.

Joseph Flagler is building a commodious house  
and barn on his farm west of town.

Dazey can boast of as fine a base ball ground  
now as any in North Dakota.

The COURIER says the laziest man yet heard of  
lives at Dazey. We can guess who that is as only  
one man here, holds a notarial commission ac-  
tually.

Pattison & Gilbertson is the name of the new  
machine firm. They will handle the Buckeye  
harvester and binder.

P. L. Ose makes the third machinery agency  
this town has. He will handle the celebrated  
Champion implements.

If you can't find what you want in town, leave  
your order with the express agent, who will get it  
for you as quick as the quickest.

Four more of those nice lots on Cooper and Sec-  
ond streets sold last week; and still we have a few  
more left. Who wants them?

Manager Larson says he thinks he can drum up  
a nine in Dazey and Hannaford, that can "wipe  
out" Valley City, on the Fourth.

Cooperstown will celebrate on the Fourth, and  
so will Dazey. Why not get together and have a  
grand time. The two places could have a celebra-  
tion that would be long remembered.

Frank Gifford, of Bradford, Pa., has been look-  
ing over the prospects for No. 1 hard, on his large  
farm, the past week.

Fred Grasser, who was thrown from his horse  
last winter, dislocating his hip, and receiving  
other severe injuries, is able to be out again, under  
the skillful treatment of Dr. Claypool.

J. D. Boyer is canvassing for a book entitled  
"Sea and Land," which is an ornament to any  
centre table, or a valuable addition to any library.

A. E. and R. Clendening receive from one to  
three carloads of lumber on each train, and can  
scarcely keep their yard stocked. This is good  
evidence that our country is fast building up.

We want the editor of the COURIER to find space  
in his paper for all of the Dazey Department. If  
anything appears in either the letters or locals that  
annoys any one's feelings, they can learn who the  
correspondents are, and get redress by writing to  
the COURIER.

Rumor reaches us that Christina & Co. will  
build an elevator here the coming season. Should  
such be the case, with the Farmer's Alliance ele-  
vator, we will have four. Will we then have our  
neighboring towns pay seven cents per bushel  
more for wheat than we do?

Should a doctor happen to read this, who would  
like to take charge of a well stocked drug depart-  
ment, and have a good territory to practice in,  
correspond with the Dazey Department of the  
COURIER, and see what inducements you will be  
offered.

The Dazey Cornet Band has had a call from  
Wheatland for the fourth, which it is unable to fill,  
as their services will be needed at home. Then  
Wheatland is to far out in the country.

At a meeting Saturday, W. L. Pattison, C. F.  
Welland and L. S. Bennett was elected a soliciting  
committee to procure funds for the celebration.  
Any who feels interested in a grand time can leave  
their subscription with either of the above, J. F.  
Halliday, A. E. Clendening and Nels Larson, with  
the soliciting committee will act as committee  
of arrangements; Col. Baker, officer of the day.

A match game of Base Ball will come off Satur-  
day between the Dazey and Gatchel prairie nine,  
at the grounds of the former. As this will be the  
first matched game for the Dazey nine this season  
we expect them to distinguish themselves credit-  
ably.

We claim the general store at this point sells  
more goods than any other store in Barnes or  
Griggs Counties. Any who don't believe, come  
and investigate; and we have room for another  
general store just as large as we have. Our town  
is not over done. It will pay some business man  
who is selling coffee and sugar along side of a  
dozen others, to come up and look our grounds over  
and see what inducements we can offer.

**Facts Worth Knowing.**  
One thousand women own and manage  
farms in Iowa.

All fowls that feather slowly are, it is  
claimed, hardy.

Too large pots account for many fail-  
ures in flower culture.

The Herefords have proven a popular  
breed on the western cattle ranches.

Progressive growers no longer feed lit-  
tle chicks an exclusive diet of corn meal.

Fine butter is a luxury and will always  
command a good price in every city mar-  
ket.

The Augusta Rattlesnake water melon is  
favorably known in both northern and  
southern markets.

Tomato, cabbage and other tender  
plants are often saved at time of trans-  
planting by dipping the roots into manure  
water and rich earth mixed to about the  
consistency of thin mush.

Profitable culture requires that care be  
taken in setting out plants to give sunny  
exposure to whatever delights in heat and  
sunshine, reserving partially shaded spots  
to plants that will thrive in the shade.

No lawn can be long maintained in good  
order without successive rolling. Mow-  
ing alone will not secure a good bottom  
without that compression which the roller  
tends to give. Rolling ought to be done  
early, before the ground becomes dry.

W. D. Philbrick believes that sowing  
seeds, as a rule, does more harm than  
good. He says: "The only chemical stuffs  
that have proved useful, so far as I know,  
are the blue vitriol to destroy germs of  
smut, strychnine to destroy crows and  
blackbirds and smearing of tar on corn-  
seed for protection from these birds."

William Crozier, New York, says: "I  
estimate the average value of manure for  
feeding stock to be \$4 per ton, or \$120 per  
acre; two tons—the average crop of hay—  
would be only \$90 per acre. The seed,  
manure and cultivation of a crop of man-  
gels need not exceed \$80 per acre at the  
utmost, leaving a clear profit of \$40 per  
acre over the labor."

**Platonic Friendships.**  
There is another English tendency that  
is achieving vogue here more and more  
every day, and which is illustrated particu-  
larly at some of these dinners. And that  
is a tendency for men and women to  
form perfectly proper and platonic friend-  
ships, irrespective of their domestic ties.  
Society women who are married are now  
disposed to regard their lives as incom-  
plete unless they have secured the intelli-  
gent admiration of some one of their male  
friends. If he is a man of ability, with  
some reputation as a speaker, a writer,  
or, better still, as a statesman, the situa-  
tion is all the more interesting. Then if  
dinner gives want to secure the presence  
of this lion it is engineered by inviting the  
lady to whom he is devoted. And it is  
seldom the device fails of its object. An  
English woman who is now visiting here  
said recently that if she wanted a prom-  
inent member of parliament present at one  
of her dinners she never failed to invite  
the married lady to whom he was paying  
faithful platonic attentions at the time.  
And the same rule seems to be now im-  
perative here.—New York Mail and Ex-  
press.

**Crossing the Plains in '49.**  
Uncle Bob Hardtack was telling the  
writer his experience in crossing the  
plains coming to California in '49.

"We started out all right from old  
Pike with a dern splendid ox team, and  
got along well enough coming up the  
Platte, but afore we got to Sweetwater  
we lost half of our team. We had to  
throw away one thing after the other to  
lighten the load, and when we got to Salt  
Lake the dern Mormons and their Injun  
friends gin us the devil.

"Finally we got to almost hatin' each  
other. We had told our little stories over  
and over again, and couldn't think of  
anything new to talk about. For days we  
come along plum worn out, hardly  
speakin' a civil word from morning to  
night, each ready for a growl or any kind  
of meanness. On a trip like that, me boy,  
if there's any dog in a man's disposition  
the har's bound to stick out."

**The Brightness of Jupiter.**  
A member of the Royal Society of Tas-  
mania finds that, as compared with Mars,  
Jupiter's surface brightness is twenty-  
two times as great as it ought to be if all  
its light is reflected sunshine, and as com-  
pared with the moon about thirteen times.  
That the brilliancy was remarkable has  
long been known, and the theory of this  
observer, that the giant planet of our sys-  
tem has not yet so cooled as to cease to be  
self luminous, is by no means new. A  
more generally accepted explanation, how-  
ever, is that Jupiter is covered with a  
highly reflective material, which absorbs  
much less solar light than Mars and the  
moon.—Boston Budget.

**Precious Stones Imported.**  
The value of the precious stones hon-  
estly imported into the United States is  
between \$8,000,000 and \$9,000,000 per  
annum, and it has been calculated that  
gems to half that sum escape payment of  
the duty.—Home Journal.
