

Gen. Grant's Daughter.
 Lucy Hooper in Philadelphia Telegraph: The deep affection called forth by Gen. Grant's great qualities in the hearts of his countrymen has naturally caused his children to become objects of sincere interest to the American Nation. The famous ex-President's only and idolized daughter has, above all, been regarded with kindly sympathy. I have lately read some interesting particulars respecting Mrs. Sartoris, and I deem it no infringement of her domestic privacy, in view of the unfortunate publicity that her matrimonial affairs (through no fault of her own, most assuredly) have already attained, to give them to the world. That her marriage has been a most ill-starred one as regards the character and the habits of her English husband no one can for one instant deny. But what is, I think, less known, and what deserves to be widely known, are the courage and strength of character that Mrs. Sartoris has of late years displayed under most trying circumstances. Her marriage was one of passionate affection on her side at least. Her attachment to her foreign wooer was proof against all the advice and the warnings of her family and her friends. She has accepted the consequences of her act with a courageous dignity that is beyond all praise. Were she to leave her husband and insist upon a legal separation, as it was at one time widely reported that she was about to do, he could by the laws of England take from her her children, and Mrs. Sartoris is too tender a mother to contemplate for a moment such a contingency. She is much beloved by her father-in-law, who is very fond and proud of her eldest son, a fine boy, who has just been sent to a public school. She has a house in London, this year, for the season, entertains her American friends, and assumes the position as head of her own household, which Mr. Sartoris ought to take, and which she takes in his stead. Her beauty has matured and ripened into an added brilliancy; but, handsome, admired, and most wofully wedded as she is, no charge, even of coquetry, or flirtatiousness, has been brought against her. Such is the true position of a much-talked-about state of affairs.

Princess Clotilde, sister of the King of Italy, has just finished a mantle she has embroidered for the Pope at her seat at Moncalieri. The mantle, which is of white satin, embroidered with golden flowers, will be sent to the approaching exhibition to be held at the Vatican on the occasion of the Pope's jubilee.

When the great singer burst into song pieces of music were scattered all around.

Fits: All Fits stopped free by Dr. Kline's Great Nerve Restorer. No Fits after first day's use. Marvellous cures. Treatise and \$2.00 trial bottle free to fit cases. Send to Dr. Kline, 941 Arch St., Phila., Pa.

To remove mildew—pay off what is due on the mill, of course.

Pico's Remedy for Catarrh is agreeable to use. It is not a liquid or a snuff.

The Atlantic is crossed in love every time a bridal party goes over.

Beautiful woman, from whence came thy bloom,
 Thy beaming eyes, thy features fair!
 What kindly hand on thee was laid—
 Endowing thee with beauty rare!
 "Twas not ever thus," the dame replied,
 "Once pale this face, these features bold,
 The 'Favorite Prescription' of Dr. Pierce
 Wrought the wonderful change which you behold."

Notwithstanding all the strikes and lock-outs, the wages of sin have not been cut down.

Hood's Sarsaparilla
 This successful medicine is a carefully-prepared extract of the best remedies of the vegetable kingdom known to medical science as Alteratives, Blood Purifiers, Diuretics, and Tonics, such as Sarsaparilla, Yellow Dock, Stillingia, Dandelion, Juniper Berries, Mandrake, Wild Cherry Bark and other selected roots, barks and herbs. A medicine, like anything else, can be fairly judged only by its results. We point with satisfaction to the glorious record Hood's Sarsaparilla has entered for itself upon the hearts of thousands of people who have personally or indirectly been relieved of terrible suffering which all other remedies failed to reach. Sold by all druggists. \$1; six for \$5. Made only by C. I. HOOD & CO., Apothecaries, Lowell, Mass.

INVALIDS' HOTEL AND SURGICAL INSTITUTE
 No. 663 Main Street, BUFFALO, N. Y.

Not a Hospital, but a pleasant Remedial Home, organized with a FULL STAFF OF EIGHTEEN PHYSICIANS AND SURGEONS, And exclusively devoted to the treatment of all Chronic Diseases.

This imposing Establishment was designed and erected to accommodate the large number of Invalids who visit Buffalo from every State and Territory, as well as from many foreign lands, that they may avail themselves of the professional services of the Staff of skilled specialists in medicine and surgery that compose the Faculty of this widely-celebrated institution.

NOT ALWAYS NECESSARY TO SEE PATIENTS.

By our original system of diagnosis, we can treat many chronic diseases just as successfully without as with a personal consultation. While we are always glad to see our patients, and become acquainted with them, show them our institutions, and familiarize them with our system of treatment, yet we have not seen one person in five hundred whom we have cured. The perfect accuracy with which scientists are enabled to deduce the most minute particulars in their several departments, appears almost miraculous, if we view it in the light of the early ages. Take, for example, the electro-magnetic telegraph, the greatest invention of the age. Is it not a marvelous degree of accuracy which enables an operator to exactly locate a fracture in a submarine cable nearly three thousand miles long? Our venerable "clerk of the weather" has become so thoroughly familiar with the most wayward element of nature that he can accurately predict the movements. He can sit in Washington and foretell what the weather will be in Florida or New York as well as if several hundred miles did not intervene between him and the places named. And so in all departments of modern science, what is required is the knowledge of certain signs. From these scientists deduce accurate conclusions regardless of distance. So, also, in medicine, chronic diseases have certain unmistakable signs or symptoms by reason of this fact, we have been enabled to originate and perfect a system of determining, with the greatest accuracy, the nature of chronic diseases, without seeing and personally

examining our patients. In recognizing diseases without a personal examination of the patient, we claim to possess no miraculous powers. We obtain our knowledge of the patient's disease by the practical application, to the practice of medicine, of well-established principles of modern science. And it is to the accuracy with which this system has endowed us that we owe our almost world-wide reputation of skillfully treating lingering or chronic affections. This system of practice, and the marvelous success which has been attained through it, demonstrate the fact that diseases display certain phenomena, which, being subjected to scientific analysis, furnish abundant and unmistakable data, to guide the judgment of the skillful practitioner in determining the nature of diseased conditions. The most ample resources for treating lingering or chronic diseases, and the greatest skill, are thus placed within the easy reach of every invalid, however distant he or she may reside from the physicians making the treatment of such affections a specialty. Full particulars of our original, scientific system of examining and treating patients at a distance are contained in "The People's Common Sense Medical Adviser," by R. V. Pierce, M. D. 1000 pages and over 300 colored and other illustrations. Sent, post-paid, for \$1.00. We write and describe your symptoms, enclosing ten cents in stamps, and a complete treatise, on your particular disease, will be sent you, with our terms for treatment and all particulars.

OUR FIELD OF SUCCESS.

NASAL, THROAT AND LUNG DISEASES.
 The treatment of Diseases of the Air Passages and Lungs, such as Hay Fever, Catarrh, Rhinitis, Bronchitis, Asthma, and Consumption, both through correspondence and at our institutions, constitutes an important specialty. We publish three books on Nasal, Throat and Lung Diseases, which give much valuable information, viz: (1) A Treatise on Consumption, Laryngitis and Bronchitis; price, post-paid, ten cents. (2) A Treatise on Asthma, or Phtisis, giving new and successful treatment; price, post-paid, ten cents. (3) A Treatise on Chronic Nasal Catarrh; price, post-paid, ten cents.

pamphlets on nervous diseases, any one of which will be sent for ten cents in postage stamps, with request for them is accompanied with a statement of a case for consultation, so that we may know which one of our Treatises to send.

DISEASES OF DIGESTION.
 Dyspepsia, "Liver Complaint," Obstructive Constipation, Chronic Diarrhea, Tape-worms, and kindred affections are among those chronic diseases in the successful treatment of which our specialists have achieved great success. Many of the diseases affecting the liver and other organs contributing in their functions to the process of digestion, are very obscure, and are not infrequently mistaken by both laymen and physicians for other maladies, and treatment is employed directed to the removal of a disease which does not exist. Our Complete Treatise on Diseases of the Digestive Organs will be sent to any address on receipt of ten cents in postage stamps.

DISEASES OF WOMEN.
 We have a special Department, thoroughly organized and devoted exclusively to the treatment of Diseases of Women, consulting our specialists, whether by letter or in person, is given the most careful and considerate attention. Important cases and we get few which have not already benefited the skill of the home physicians has the benefit of a full Council of skilled specialists. Rooms for ladies in the Invalids' Hotel are very private. Send ten cents in stamps for our large Complete Treatise on Diseases of Women, illustrated with numerous wood-cuts and colored plates (168 pages).

KIDNEY DISEASES.
 Bright's Disease, Diabetes, and kindred maladies, have been very largely treated, and cures effected in thousands of cases which had been pronounced incurable. The study and ready diagnosis of the urine, or determined, by chemical analysis of the urine, without a personal examination of patients, who can, therefore, generally be successfully treated at a distance. The study and practice of chemical analysis and microscopic examination of the urine in our consideration of cases, with reference to correct diagnosis, in which our institution long ago became famous, has naturally led to a very extensive practice in diseases of the urinary organs. Probably no other institution in the world has been so largely patronized by sufferers from this class of maladies as the old and world-famed World's Dispensary and Invalids' Hotel. Our specialists have acquired, through a vast and varied experience, great expertness in determining the exact nature of each case, and, hence, have been successful in steadily adapting their remedies for the cure of each individual case.

RADICAL CURE OF RUPTURE.
 HERNIA (Breach), or RUPTURE, no matter of how long standing, or of what kind, is promptly and permanently cured by our specialists, without the knife and without dependence upon trusses. Abundant references. Send ten cents for Illustrated Treatise.

CAUTION.
 These delicate diseases should be carefully treated by a specialist thoroughly familiar with them, and who is competent to ascertain the exact condition and stage of advancement which the disease has reached. It can only be ascertained by a careful chemical and microscopic examination of the urine, for medicines which are curative in one stage or condition are known to do positive injury in others. We have never, therefore, attempted to put up anything for general sale through druggists, recommending to cure these diseases, although possessing very superior remedies, knowing full well from an extensive experience that the only safe and successful course is to carefully determine the disease and its progress in each case by a chemical and microscopic examination of the urine, and then adapt our medicines to the exact stage of the disease and condition of our patient.

DELICATE DISEASES.
 Organic weakness, nervous debility, premature decline of the manly powers, involuntary vital losses, impaired memory, mental anxiety, absence of will-power, melancholy, weak legs and kindred affections, are speedily, thoroughly and permanently cured. To those acquainted with our institutions, it is hardly necessary to say that the Invalids' Hotel and Surgical Institute, with the branch establishment located at No. 8 New Oxford Street, London, England, have, for many years, enjoyed the distinction of being the most largely patronized and widely celebrated institutions in the world for the treatment and cure of those affections which arise from youthful indiscretions and pernicious, sedentary practices. We, many years ago, established a special Department for the treatment of these diseases, under the management of some of the most skillful physicians and surgeons on our Staff, in order that all who apply to us might receive all the advantages of a full Council of the most experienced specialists.

WONDERFUL SUCCESS.
 To this wise course of action we attribute the marvelous success attained by our specialists in that important and extensive Department of our institutions devoted exclusively to the treatment of diseases of the kidneys and bladder. The treatment of diseases of the urinary organs having constituted a leading branch of our practice at the Invalids' Hotel and Surgical Institute, and being in constant receipt of numerous inquiries for a complete work on the nature and curability of these maladies, written in a style to be easily understood, we have published a large Illustrated Treatise on these diseases, which will be sent to any address on receipt of ten cents in postage stamps.

WE OFFER NO APOLOGY.
 We offer no apology for devoting so much attention to this neglected class of diseases, believing no condition of humanity is too wretched to merit the sympathy and best services of the noble profession to which we belong. Many who suffer from these terrible diseases contract them innocently. Why any medical man, intent on doing good and alleviating suffering, should shun such cases, we cannot imagine. Why any one should consider it otherwise than most honorable to cure the worst cases of these diseases, we cannot understand; and yet of all the other maladies which afflict mankind there is probably none about which physicians in general practice know so little.

BLADDER DISEASES.
 Inflammation of the Bladder, Gravel, Enlarged Prostate Gland, Stricture, and kindred affections, may be included among those in the cure of which our specialists have achieved extraordinary success. These are fully treated of in our illustrated pamphlet on Urinary Diseases. Sent by mail for ten cents in stamps.

CURED AT HOME.
 Most of these cases can be treated by us when in person. Our Complete and Illustrated Treatise (168 pages) on these subjects is sent to any address on receipt of ten cents in stamps.

STRICTURE.
 STRICTURES AND URINARY FISTULAE.—Hundreds of cases of the worst form of stricture, many of them greatly aggravated by the careless use of instruments in the hands of inexperienced physicians and surgeons, causing false passages, urinary fistulae, and other complications, annually consult us for relief and cure. That no case of this class is too difficult, for the skill of our specialists is proved by cures reported in our illustrated treatise on these maladies, to which we refer with pride. To intrust this class of cases to physicians of small experience is a dangerous proceeding. Many a man has been ruined for life by so doing, while thousands annually lose their lives through unskillful treatment. Send particulars of your case and ten cents in stamps for a large, illustrated treatise containing many testimonials.

SURGICAL PRACTICE.
 Hundreds of the most difficult operations known to modern surgery are annually performed in the most skillful manner, by our Surgeon-specialists. Large Stones are safely removed from the bladder, by crushing, washing and pumping them out, thus avoiding the great danger of cutting. Our specialists, remove cataract from the eye, thereby curing blindness. They also straighten cross-eyes and insert artificial eyes when needed. Many Ovarian and also Fibroid Tumors of the Uterus are arrested in growth and cured by electrolysis, coupled with other means of our invention, whereby the great danger of cutting operations in these cases is avoided. Especially has the success of our improved operations for Varicocele, Hydrocele, Fistula, Ruptured Cervix Uteri, and for Suppuration, been alike gratifying both to ourselves and our patients. Not less so have been the results of numerous operations for Stricture of the Cervical Canal, a condition in the female generally resulting in Barrenness, or Sterility, and the cure of which, by a safe and painless operation, removes this commonest of impediments to the bearing of offspring. A Complete Treatise on any one of the above maladies will be sent on receipt of ten cents in stamps.

NERVOUS DISEASES.
 Epileptic Convulsions, or Fits, Paralysis, or Palsy, Locomotor Ataxia, St. Vitus's Dance, or chorea, or inability to sleep, and threatened insanity, Nervous Debility, arising from overstudy, excess, and other causes, and every variety of nervous affection, are treated by our specialists for these diseases with unusual success. See numerous cases reported in our different illustrated

ALL CHRONIC DISEASES A SPECIALTY.
 Although we have in the preceding paragraphs, made mention of some of the special ailments to which particular attention is given by the specialists at the Invalids' Hotel and Surgical Institute, yet the institution abounds in skill, facilities, and apparatus for the successful treatment of every form of chronic ailment, whether requiring for its cure medical or surgical means. All letters of inquiry, or of consultation, should be addressed to

\$500 Reward.

If you suffer from dull, heavy headache, obstruction of the nasal passages, discharges falling from the head into the throat, sometimes profuse, watery and acrid, at others, thick, tenacious, mucous purulent, bloody and putrid; if the eyes are weak, watery and inflamed; and there is ringing in the ears, deafness, hacking or coughing to clear the throat, expectoration of offensive matter, together with scabs from ulcers; the voice being changed and having a nasal twang; the breath offensive; smell and taste impaired; experience a sensation of dizziness, with mental depression, a hacking cough, and general debility, then you are suffering from chronic nasal catarrh. Only a few of the above named symptoms are likely to be present in any one case at one time, or in one stage of the disease. Thousands of cases annually, without manifesting half of the above symptoms, result in consumption, and end in the grave. No disease is so common, more deceptive and dangerous, less understood or more unsuccessfully treated by physicians. The manufacturer of Dr. Sage's Catarrh Remedy offers, in gold faith, \$500 reward for a case of catarrh which they cannot cure. The Remedy is sold by druggists at only 50 cents.

The fellow who tumbled down stairs is nearly always a back slider.

Many Years Ago.
 Allen's "Iron Tonic Bitters" were introduced to the public many years ago. It took long years of patient toil to perfect them and make them known to the public. They are now a grand success. Unprincipled persons are flooding the country with base imitations. All genuine bear the signature of J. P. Allen, St. Paul, Minn. Look to this, and you are all right.

There's hardly a baby in the world that hasn't its necessary aunty-dote.

"Golden at morning, silver at noon, and lead at night," is the old saying about eating oranges. But there is something that is rightly named Golden, and can be taken with benefit at any hour of the day. This is Dr. Pierce's Golden Medical Discovery, literally worth its weight in gold to any one suffering with scrofulous affections, impurities of the blood, or diseases of the liver and lungs. It is unfailing. By druggists.

It is painful to see a man trying to sow wild oats in his dotage.

POND'S EXTRACT
 INVARIABLE FOR
 BURNS, SCALDS, DIARRHEA, CHAFING, STINGS OF INSECTS, PILES, SORE EYES, SORE FEET.
